Von Linda Winstead Jones : Jackie and the Giant (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Jackie and the Giant (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Move Over J. LindseyVon MellyHAAfter being trapped in a never-ending Johanna Lindsey cycle for weeks, Linda Jones' 'Giant' was phenomenal. I loved the relationship that the two main characters were involved in and how the plot DID thicken and get resolved.Set in the 1800's, the main character is a thief looking for her ticket out. Unfortunately her

victim's insomnia ruins her plans. She finds herself employed by him as governess to his rambunctious child! This man (forgive me for forgetting his name), has a lot on his mind and luckily Jackie is just the thief to steal his heart and remind him that one never forgets how to love. The story never gets too complicated and is a breath of fresh air after so many redundant books with weak female characters. There is a slight fairy tale twist (Jack and the Beanstalk) but is only inbetween the lines and never overwhelms. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Jackie and the Giant -- Original Von J. Freedman I must say, this book is a bit different than your run-of-the-mill romance. The "fairy tale" element works well for Linda Jones, as not too many people have tried this in the romance genre. The book is not vastly amazing or impressive, but it was a good read and not entirely sappy. I'd recommend this if you just want a good romance book to read on a rainy day. It's not that bad.

Kurzbeschreibung Tonight was the night. Jacqueline Beresford's life as a female cat-burglar would finally end--after one last treasure made her rich. The beautiful Faberge egg was within her grasp. She could almost feel the intricate designs touching her fingertips. She could almost see the sparkling jewels in the light of day. She could almost hear--a man right behind her! The giant of a man threw a shadow over Jackie's reaching hand and her dreams of great fortune. He could have crushed her with a single blow--but he didn't. Instead, he lifted her up. Rory Donovan gave Jackie a job as his son's own governess. He wanted to help her--and perhaps to love her. But could Jackie trust a man who had used her sins to make himself her master?
