If you are thinking Arlene Dahl, you will be shocked.Von BernieI grew up on the James Mason movie, "Journey to the Center of the Earth" (1959), so it was quite a shocker to read the book. You could imagine to my dismay the absents of quite a few characters and the center of the story is Germany not Scotland.Now for avid readers you could care less about old movies, I can truthfully say that this is one of Jules Verne's best stories and well told.What you will find more interesting and fun about this tale is the characters and their interaction. One of my favorite parts is when Harry who did not want to go to the center of the earth with his uncle, Professor Hardwigg; he turned to his affianced, Gretchen, and was planning on her to stop him. Her answer is shockingly disappointing to him."While there is life there is hope. I beg to assert, Henry, that as long as man's heart beats, as long as man's flesh quivers, I do not allow that being gifted with thought and will can allow himself to despair"Be prepared as the bulk of the book is really a geological journey back through time and forward again painfully spelled out by Harry whom is the first person narrator.The Kindle version does not have actual picture of the runes in chapter 1. Moreover, a tad off on pronunciations. Other than that, it is more than worth obtaining along with a hard copy for your library.0 von 0 Kunden fanden die folgende Rezension hilfreich. Professor Lindenbrock auf den Weg durch die ErdeVon LindemeierDas "Journey to the Centre of the Earth" ein hufig gelesener Klassiker ist hat seinen Grund. Das Buch lsst sich auch in Englisch noch sehr gut und verstndlich lesen. Die Geschichte ist sehr grosse Abschnitte entlang sehr spannend und interessant, hufig fragt man sich was die Abendteurer hinter der nchsten Biegung finden.Wer die Geschichte vielleicht auf Film und Fernsehen zu kennen glaubt wird sehr berrascht sein wenn er das Buch einmal selber gelesen hat.Trotz des zum teil schnrkellosen Erzhlstils kann die Geschichte sehr gut fesseln. Jules Verne hat es verstanden einen fiktiven Roman mit gerade soviel Wissenschaftlichen Erkenntnissen (der damaligen Zeit) zu unterlegen dass die Geschichte fast schon Glaubwuerdig wird, aber doch nicht von zuviel besserwisserischen Fakten zugestaubt wird.Fuer mich ist das Buch ein muss fuer jeden, der sich vorgenommen hat sein Literarisches Grundwissen ein wenig zu erweitern.

KurzbeschreibungJules Gabriel Verne (8 February 1828 24 March 1905) was a French novelist, poet, and playwright best known for his adventure novels and his profound influence on the literary genre of science fiction.In this collection you will be entering an adventure by Jules Verne!Each book is elegantly formatted for ease of use and enjoyment on your Kindle device.Enjoy with this 7 beautiful classics:Twenty Thousand Leagues Under the SeasA JOURNEY TO THE CENTRE OF THE EARTHFROM THE EARTH TO THE MOONAROUND THE WORLD IN EIGHTY DAYSTHE MYSTERIOUS ISLANDFIVE WEEKS IN A BALLOONTHE MASTER OF THE WORLDPressestimmenThe reason Verne is still read by millions today is simply that he was one of the best storytellers who ever lived.Arthur C.
