Von Faye Kellerman : Jupiter's Bones: A Decker/Lazarus Novel (Peter Decker and Rina Lazarus Series Book 11) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Jupiter's Bones: A Decker/Lazarus Novel (Peter Decker and Rina Lazarus Series Book 11) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Good escape readingVon Charlotte MFaye Kellerman is one of those authors, like Robert Parker and Karen Kijewski, whose books I always buy when I see them in paperback,because I know I can count on a great escape. After reading her unfortunate foray into werewolfism, I was so happy to see her back to the popular series that I have always liked. I hope she'll stick with Peter and Rina indefinitely, because the family keeps getting more interesting, and these books have always combined some of the qualities of good literature with the page-turning of mysteries. "Jupiter's Bones" is a good page-turner with some great villains ,a couple of terrific heroines , and one lovely little poetic subplot that fans of "The Little Prince" will enjoy. I did find some of the gore gratuitous and got really tired of the chicken blood episode, but this writer is still rewarding enough to make up for some recent tendencies toward too much, well, chicken blood.1 von 1 Kunden fanden die folgende Rezension hilfreich. I'm sorry people! But I enjoyed this book!Von Ein KundeI can say that I've never been disappointed by a Faye Kellerman book. But then again, I haven't read Moon Music (and I don't think I will judging by the reviewer comments).That being said, I enjoyed this book very much. I think Faye Kellerman is a terrific author. Her writing style is terrific, concise, and darn interesting. I hate finishing her books. I was a tiny bit disappointed with the resolution, but I really enjoyed the subplots with Rina's sons and Marge. Anyway, I can't wait to read Stalker when it comes out. Faye Kellerman is one of the few authors whose books I make a point of reading. I do the same thing with Sue Grafton's Kinsey Milhone books. Gotta have it. Like Pepsi.1 von 1 Kunden fanden die folgende Rezension hilfreich. Faye Kellerman - where are you?Von Ein KundeThis book is such a disappointment. I have loved this series from the very beginning until now. I think Kellerman has lost her purpose. She seems to have picked up some of her husband's gory story writing. She hit on almost every unspeakable crime imaginable in this book from a decapitation and blood draining to child sexual abuse. And to top it off, she leaves Rina almost totally in the background! Kellerman took a break from this series . . . and quite frankly, she wasn't ready to come back to it. She has really let Pete and Rina down . . . and her following too! I hope she can recover. I'll miss the series.

KurzbeschreibungOnce Dr. Emil Euler Ganz was a preeminent astrophysicist with a worldrenowned reputation. But then he vanished without any warning to his family or colleagues. Fifteen years later, he reappeared as "Father Jupiter," the founder and charismatic leader of the scientific cult, The Order of the Rings. And now he's dead--a vial of sleeping pills and an empty bottle of vodka standing near his lifeless body.Was Ganz's death an accident? Suicide? Or did someone hasten Jupiter prematurely out of this world? These are the questions LAPD Lieutenant Peter Decker and his Homicide team are determined to answer as they enter the cult's fortresslike compound. But the dead leader's four "privileged" attendants make it clear that the police are not welcome there--and the mysterious disappearance of two of the Order's members, including a child, turns an already uncomfortable situation even uglier and more incendiary. Decker will need more than the wisdom and support of his wife, Rina Lazarus, to defuse a ticking time bomb of jealousy, greed, bizarre hidden pasts, and deadly secrets--one that could explode at any time into mayhem so pernicious that it threatens to destroy a multitude of misguided lives--and scores of helpless, innocent children as well..deFaye Kellerman's 11th Peter Decker/Rina Lazarus mystery takes police lieutenant Decker into the enclave of a Heaven's Gate-style pseudoscientific religious cult, the Order of the Rings of God. The cult's leader, a former world-class physicist who styles himself Jupiter, has died of an un-godlike combination of liquor and prescription drugs, but whether it was accident, suicide, or murder is suspiciously murky. The death is mysteriously reported by Jupiter's estranged daughter Europa, a scientist who has nothing to do with the cult, and when the police arrive on the scene they find that Jupiter's followers, particularly his four unpleasantly ambitious personal attendants, range from uncooperative to downright hostile. Decker's suspicions kick into high gear when two other cult members go missing and another body turns up--but with the tense situation threatening to unravel as explosively as Jonestown or Waco, it's Marge, Decker's professional sidekick, who penetrates the cult's inner sanctum and effects a scary 11th-hour rescue. For Decker, as always, the mystery serves to offset the tempestuous Orthodox Jewish family life that he married into. Sammy, Rina's older son, wants to study in a politically unstable region of Israel and Jake, the youngest, is teetering on the edge of a most unorthodox social scene of girls, porn movies and pot. Kellerman knows how to craft a compelling mystery, but it's the honesty of Decker's unique religious and family struggles that keeps mystery fans interested book after book. If you're new to this series, you'll want to begin at the beginning with Ritual Bath. --Barrie TrinklePressestimmenA mistress of the genre... Kellerman tells a good scary tale with just enough reality , humour, and accuracy to keep you turning the pages Irish News
