**Von Sue Welfare : Just Desserts (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Just Desserts (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Nettes Buch fr den UrlaubVon anonymIch habe dieses Buch im Sonderangebot auf gut Glick erstanden, wusste auer dem Klappentext also nicht richtig, was mich erwarten wrde.Zunchst war ich dann sehr begeistert. Der Anfang schien sehr

vielversprechend: Hausfrau und Mutter hlt es nach 20 Ehejahren nicht mehr aus und will ihrer unglcklichen Ehe ein Ende bereiten und damit zugleich einen Neuanfang wagen, fr welchen sie sich Rat kompetenten Rat zur finanziellen Durchfhrung ausgerechnet bei der Geliebten ihres Ex holt, was die beiden jedoch erst nach einer ganzen Weile entdecken und dann Rache schwren. Ab diesem Zeitpunkt lsst die Handlung und auch der Stil jedoch stark nach. Das Ende ist vorhersehbar und liefert nicht die erhoffte hinterhltige Rache, sondern scheint eher human. Es sind zwar ab und an immer noch mal ein paar nette Kapitel, aber ansonsten ist der zweite Teil des Buches sehr flach. Trotzdem gibt's NOCH 4 Sterne wegen des guten Anfangs und der gewissen Prise Humor, die einen des fteren zum Schmunzeln bringt. 0 von 0 Kunden fanden die folgende Rezension hilfreich. The perfect title for a perfect book! Just Desserts indeed! Von erin Kollmuss A funny, yet often true of how women can be considered as servants to be counted on to ALWAYS be there for the little man, until they find the courage to get over their guilt and actually take their lives in their own hands. It's a very scary step for most women to take, but definitely well worth the effort. The book was very well written with just enough humor and a good dose of truth. Sue Welfare has succeeded in writing a very good guide which is to the "welfare" for all those "kitty cat" wives who should find a life!

Kurzbeschreibung After spending a lifetime looking after her husband, Harry, Katherine Bourne has had enough. Every time she chops up her delicious home-grown tomatoes she dreams of murdering her husband. Why cant Harry just have an affair with a younger woman, and leave? Trouble is Harry has no intention of giving up his home comforts. Not when hes been having his cake and eating it for years. Glamorous banker Carol accompanies him on business trips and the odd weekend away, but she too is beginning to think maybe life with Harry is growing stale. So whos fooling who? Harry, happy in his illusion that hes a sex god and all his women love him? Katherine and Carol, unlikely partners in Harrys parallel lives? Against a background of gleeful coincidences, cute Cambridge cafes and the unexpected joys of unexplored freedom, the women decide that revenge is a dish best eaten cold. First published in 1999, Just Desserts takes us back to an era of shoulder pads and fax machines, and proves that when it comes to love and betrayal some stories are timeless. Pressestimmen Praise for A FEW LITTLE LIES 'Good fun' Bookseller 'Captures an authentic flavour of semi-rural angst...an entertaining debut' Mail on Sunday Kurzbeschreibung After spending a lifetime looking after her husband, Harry, Katherine Bourne has had enough.
