SchmidThat story has everything I was looking for in an erotic lovestory! ...gay lovestory, by the way!The characters are believable and very plastic, which even in a shortstory is very important to me...The writingstyle is modern, fresh and with a very nice flow... it's not too hasty and not to slow.

It describes the world, the scenes and situations so well, that all the emotion (in this story mostly joy, excitement, anxiousness and of course lust) are transported extremely vivid and powerful...Oh yeah, and of course the story is also just extremely HOT and Sexy!!! hehe... which I guess is kinda important, too!Bottom line: It's a really really fun, entertaining and beautiful story! ...oh and did I mention *HOT*! :D
