Von Lauren Sanders : Kamikaze Lust before purchasing it in order to gage whether or not it would be worth my time, and all praised Kamikaze Lust:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. A Fabulous Book Von Ein Kunde What a compelling read. Emotionally intense, culturally relevant, and deeply and seamlessly driven by its rich characters. Reading this book reminded me of Rick Moody's Ice Storm--so sad at times I

wanted to throw it across the room yet too engaging to put down until the end. This is an ambitious and often lonely ride through mainstream media and hardcore pornography, a quest for love and identity, and yes, the heartbreaking fragility of one typically eerie nuclear family. Sanders has the heart and stomach to pull it all off and the sharp mind to tie it all together. I look forward to reading more of her work.0 von 0 Kunden fanden die folgende Rezension hilfreich. Sexy, disturbing, funny what a read.Von John RogersLauren Sanders' first novel is terrific. Sanders writes very,very well and she weaves a story that is sexy, disturbing and, at points, laugh out loud funny. Once I got to the middle of the book I kept finding excuses to put the rest of my life on hold so I could stay in my chair and keep reading. This is a serious book about serious things that does not preach but, rather, gets its point across while entertaining the reader to no end. Now THAT is refreshing. I, for one, can't wait to read her next book. Sanders is a writer to cheer about. A good book.0 von 0 Kunden fanden die folgende Rezension hilfreich. KAMIKAZE LUST IS A MUSTVon E. GeorgiouHow refreshing it is to read a novel that is a novel and not some feeble attempt at a thinly veiled memoir. Sanders creates characters that make me love, that make me squirm, and that make me feel something profound. This book took me on a rollercoaster ride; it was thrilling, it was scary, and it brought my heart right up to my mouth. Once the book came to an end, I took a breath, I placed it by my nightstand, and yes it's calling to me to read it again. If you want something skillful and intelligent buy this book.

KurzbeschreibungKamikaze Lust by first-time novelist Lauren Sanders takes the reader on an electrifying ride through the spectacle of life and death in millennial America. Smart, hardboiled and humorous, the novel taps our obsession with sex and death, sex and popular culture, sex and the written word, sex and pornography, sex and green MMs, and, of course, the perennial sex and love."Great courage must account for such complete disregard of political correctness, and great sensitivity for such sadness."Amanda Filipacchi, author of Vapor and Nude MenLauren Sanders is a novelist and journalist who lives in New York City. She is co-editor of the anthology Too Darn Hot: Writing About Sex Since Kinsey, published by Persea Books in 1998. She is a graduate of Columbia University's school of journalism and has an MA in Creative Writing from City College in New York.
