I loved how this simple yet complicated story was wrapped up in drama, fear, emotion, adorableness, a little smut and wonderful character growth.For me, their story felt so real,

touched me deeply and left me super satisfied. This was something sweet and sexy without being sugar coated or pages filled with pointless sex. I really loved all characters, even the sidekicks. There was just the perfect amount of everything in it for my liking :) 0 von 0 Kunden fanden die folgende Rezension hilfreich. Nice story Von Querleser A nice story without surprises. The lovely MCs run straightforward toward their HEA. There's no drama (okay, the absolutely unnecessary visit of the ex is without further sense but seems one of the must-haves in these romances, nowadays), only a few misunderstandings and no overly dramatic inner musings. If you want a nice romance with a normal child, this is a good story for you.

Kurzbeschreibung After his partner dumped him with a pregnant surrogate four years ago, Cary Whitmore was forced to play single parent while starting up a new business. With the dog bakery now semi-successful and his son healthy, Cary thinks he may be ready to date again. Heath Cummings is trying his damndest to get his charter boat service off the ground and dreams of one day soon being able to quit his job as an offshore driller. Paying off his dream requires making it through a couple more years, which means being open about his sexuality isn't in the cards just yet. When the two take their flirting to the next level, Cary wonders if he can handle another guy who might take off, while Heath has to decide if he can risk his dream of a laid back life and giving up his long-held and much enjoyed bachelor status while taking on a child when being a father was never on his to-do list. Will they sink, or will they keep swimming?

ber den Autor und weitere Mitwirkende Kade Boehme is a southern boy without the charm, but all the sass. Currently residing in Seattle, he lives off of ramen noodles and too much booze. He is "the epitome of dorkdom", only watching TV when Rachel Maddow or one of his sports teams is on. (That'd be Orioles, Seahwaks, Ravens, or Gators.) Most of his free time is spent dancing, arguing politics or with his nose in a book. He is also a hardcore Britney Spears fangirl and has an addiction to glitter. It was after writing a short story about boys who loved each other for a less than reputable adult website that he found his true calling, and hopefully a bit more class. He hopes to write about all the romance that he personally finds himself allergic to but that others can fall in love with. He maintains that life is real and the stories should be, as well.
