Von Jennifer Estep : Killer Frost (Mythos Academy) before purchasing it in order to gage whether or not it would be worth my time, and all praised Killer Frost (Mythos Academy):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Ein perfektes EndeVon kleinesdfr eine perfekte Geschichte. Ich habe es geliebt diese Geschichte zu lesen und mit Gwen zu lachen, zu weinen, sich zu rgern und mitzufiebern. Jennifer Estep hat es geschafft nicht von der allerersten bis zur letzten Seite zu fesseln.Killer Frost ist der fulminante Abschu einer Reise von der grauen Maus zum

Champion.Schade, dass diese Geschichte hier endet. Aber nach diesem Buch gibt es auch nicht mehr zu schreiben :)Ich werde die Reihe sicherlich noch fters lesen!0 von 0 Kunden fanden die folgende Rezension hilfreich. Killer Frost by Jennifer EstepVon TeeroseFirst thoughts before reading this bookWith the conclusion of the series nostalgia settles in and I really feel like lying in my bed - my blanket tightly wrapped around me - and just watching the ceiling and dreaming.The characters (and the readers) went a really long way and with the story finally ending I must say that the sarcastic Gwen and her friends will always have a soft spot in my heart and it leaves a melancholic note for me. The book wasn't WOW but still it was really good.At the beginning I have to say that when I started the series I was really annoyed with Gwen and overall the story telling because it was TOO predictable and Gwen sometimes really acted nave AND (I really don't want to say it but here it goes anyway) stupid. Many times I had to make a facepalm because of her character.But I kept on reading the following books even though the second and third book weren't that surprising from the story either. What really kept me going was the wonderful friendship and interaction of Gwen and her friends and family. It was so sweet and funny and especially so real. I loved it.What made the series truly beautiful to meAnd so it was in the final book Killer Frost. Jennifer Estep has a beautiful way of writing the relationships between the characters which truly appeals to me. Be it the bond between two lovers, a grandmother and a grandchild, be-tween two best friends or even a warrior and its sword. The bonds the charac-ter all shared were striking and it was a really nice thing for me to read about.In comparison to the first few books I couldnt smell the plot a mile away anymore and this was a big relief (Although at some points you could still guess where it was going.)Even at the end when the book finally reached its climax I had to shed some tears which really surprised me. I knew that the book was going to have a happy ending but still the overall setting and the mood somehow brought me to tears.In the end I just realized that I will really miss these characters.Last but not leastJennifer Estep set up a part in the book that might suggest a future spin-off series. I am really really satisfied with the ending.What is left to say is only goodbye to this awesome series and I am sure I will return to this series again just to visit this magical world and its characters .[...]0 von 0 Kunden fanden die folgende Rezension hilfreich. Free will is a powerful thing! the satisfying conclusion of the Mythos Academy seriesVon MinaNote: since this is the final book of the Mythos Academy YA series and all threads come to their respective ends, this is no place to start the series. If you're new to it, I recommend to stop reading here and start with Touch of Frost or the prequel novella First Frost.ReviewOne cannot possibly rate the final installment of a series and not rate the series as well. So to get it out of the way, I'll start with the series as a whole: I like it a lot most of the time. The overall story arc was intricate and it's clear that J. Estep put a lot of thought into the whole plot, how it should develop and more important, how it was to end in a fantastical, yet believable fashion. So it all comes full circle and that's a good thing for any reader. Another thing the series did excel at for me, was the elaborate world-building. Once I got over my shock about the bold mixing of all possible gods and goddesses, I came to appreciate the thoroughness and how it stuck to its rules and was an active part of the story.The characters were the only part of the books, I was aggravated by at times Gwen is cool, likable and I admire her sense of justice and how she does what is necessary, always knowing about the consequences and accepting them. And her friend Gwen, her cousin Rory and Nickamedes are plain awesome. So there are two things I disliked about the character cast: firstly Gwen's continuously taking the blame for... everything. Even if no one is able to even begin to understand how she could think so. And this is something happening in every single book. Not so great.And my least favorite part of the books were Logan Quinn and Gwen's strange kind of relationship with him. As she says herself at one point: they actually spent more time apart than together. Let alone happy together. I know how he is supposed to be the loving hero, but no, I just don't see it. I know a great lot of readers love him, but I don't. I think that his actions for the most part aren't very courageous [except for when being on the battle field]. And I read about the couple's feelings, but I don't see them. In Killer Frost, Logan actually isn't at his most annoying and I have to admit that there was one moment I doubted him [along with Gwen] and he turned out to be... reliable.So this is it, the last steps towards the final showdown between Gwen and Loki and the Pantheon and the Reapers. And I have to say, it doesn't disappoint. There are gripping twists and turns and I cheered Gwen on at every step of her way. Again she follows her instinct and just when I thought, well how is that supposed to turn out any good?, she surprised me at how sound her plan is and how well she plays her part. I loved that there isn't just one showdown everything else leads to, but quite a few epic moments. And not only Gwen shines, but her friends do as well. And say what you want, the way it ended was the only manner possible. It was ingenious and satisfying. I'm content that the story does not only come full circle, but that each and every open question was answered one way or another.This is why I can wholeheartedly say: minor complaints aside, this is one well done end of the Mythos Academy series!

KurzbeschreibungI've battled the Reapers of Chaos beforeand survived. But this time I have a Bad, Bad Feeling it's going to be a fight to the death. . .most likely mine. Yeah, I've got my psychometry magic, my talking sword, Vic, and even the most dangerous Spartan on campus at my side in Logan freaking Quinn, but I'm no match for Loki, the evil Norse god of chaos. I may be Nike's Champion, but at heart, I'm still just Gwen Frost, that weird Gypsy girl everyone

at school loves to gossip about. Then someone I love is put in more danger than ever before, and something inside me snaps. This time, Loki and his Reapers are going down for good . . . or I am. Praise for the international bestselling Mythos Academy series "Lots of twists and turns and a surprise ending will leave the reader breathless!" RTBook s on Kiss of Frost, 4Stars "Humor, snark . . . a world you won't want to leave." Heroes Heartbreakers Kurzbeschreibung I've battled the Reapers of Chaos before and survived.
