Von Diane Mott Davidson : Killer Pancake (Goldy Schulz) before purchasing it in order to gage whether or not it would be worth my time, and all praised Killer Pancake (Goldy Schulz):

deliciously light mystery! Von Nancy A. Fox This is the 5th book in the Goldy the caterer series. This time the girlfriend of her beloved assistant and border, Julian Teller, is murdered. Of course Goldy can't stand by and let Julian suffer, so she pokes her nose into things and eventually solves a murder. Along the way she deals with her best friend's heart attack, her vicious ex-husband, her new husband, a teenage son, demanding clients, the cut throat cosmetic industry, and animal rights activists. All while preparing delicious low fat recipes. Don't read on an empty stomach.

Von Ein Kunde Am I the only food professional who didn't know about these delicious mysteries? In Killer Pancake Mott Davidson's indomitable sleuth, Goldy the Caterer, takes on the cosmetic industry, the lunatic fringe of animal rights activism, and (once again) her menacing ex-husband. And she still has time to operate her demanding business on a daily basis! Actually, that's what I like best about Mott Davidson's mysteries. Goldy has to make time for business; she needs the money. This sleuth is always real. Her business, her family, her love life, and her friendships have ups and downs and ins and outs that seem awfully familiar. Specifically I enjoy the details of her catering business and have learned or been reminded of tons of information about food preparation, storage, and presentation. These books are a veritable archive of food lore. And the recipes--some of which I've tried--are great! I especially enjoyed the recipes from Killer Pancake because they were developed for low fat crowd. Try the Vanilla-Frosted Fudge Cookies. They're yummy. My biggest worry is that Goldy will run out of murders. I mean, Kay Scarpetta has D.C and V.I. Warshawski has Chicago--no end to violent crime there. But shouldn't little Aspen Meadows dry up pretty soon? I guess there's always Denver.

Von Ein Kunde Crime stats in the deceptively peaceful mountain town of Aspen Meadow can only rival those of Cabot Cove, where friends and acquaintances of caterer Goldy Bear are in just as much mortal danger as Jessica Fletcher's colleagues. These highly convoluted crimes are usually solved with equal measures of good food, maternal blundering and feminine wiles, with a dash of social commentary tossed into the batter as well. Light hearted, fluffy, spiritual and delicious -- and low calorie too! My weight loss group is working our way through the Little Goldy books.

Kurzbeschreibung When Goldy, owner of Goldilocks' Catering, faces the challenge of whipping up a sumptuous lowfat feast for the Mignon Cosmetics' company banquet, she rises to the occasion brilliantly...only to discover just how ugly the beauty biz can be! On the day of the banquet Goldy finds herself confronting an angry mob of demonstrators--"Spare the Hares"--who object to Mignon Cosmetics' animal-testing policies. As she struggles to carry forty pounds of lowfat fare from her van to the mall where the banquet is being held, she hears an ominoussqueal of tires and a horrifying thump. Seconds later, a Mignon employee lies dead on the pavement. And soon the police discover that this hit-and-run was no accident. Now Goldy is enmeshed up to her saute pans in a homicide investigation. Could the murder have had something to do with Spare the Hares--or with the exotic flower found near the dead body? Though busy serving up Hoisin Turkey and Grand Marnier Cranberry Muffins, Goldy decides to start digging at Mignon's million-dollar cosmetics counter. But when another murder takes place and Goldy herself is attacked, the caterer turned sleuth knows she must step up her search for a gruesome killer. For this time was only a warning. Next time she'll be dead--and it won't be pretty.

From the Paperback edition. From Library Journal Caterer Goldy Schulz returns with another food-related adventure and more delectable recipes. Careful planning for a cosmetics firm's lowfat luncheon fails to prepare Goldy for the sudden death of a gorgeous sales associate who was caught in the midst of an animal-rights demonstration.
