reasons I bought a Kindle. I am hoping that the Mack Bolan - The Executioner will come out as E book sometime.

Kurzbeschreibung Civilizations fell when Cortez and his conquistadores landed in the New World. The Mayans, the Aztecs and the Toltec all vanished into the mists of history. But one tribe survived: the Actatl. And what survived with them was their huge stone idol, Uctut - the sacred rock which demanded blood as a sacrifice . . . human blood. When the stone is despoiled in a New York museum by a young graffiti freak, the Actatl leaders demand revenge on the despoiler and on the country which gave rise to him. Their method of vengeance? Simple - extract the victim's heart. But when one of their first victims is a US Congressman, something special is called for. Enter Remo Williams: The Destroyer, an ex-cop who should be dead, but instead fights for the secret government law-enforcement organisation CURE. Trained in the esoteric martial art of Sinanju by his aged mentor, Chiun, Remo is America's last line of defence. Breathlessly action-packed and boasting a winning combination of thrills, humour and mysticism, the Destroyer is one of the bestselling series of all time.
