full of stoners, doctors and celebrities on the lam. Enjoy!Nixie Leighton-Brace is ready to quit the family business. It's not the work--she loves building hospitals, schools and orphanages for her family's humanitarian organization. But when her movie-star mother steals Nixie's boyfriend to generate publicity for their latest cause, Nixie snaps. She quits her job, walks away from her family, and boards a plane to the one place on earth she's never been. Home. Dr. Erik Larsen likes to keep his private life private, a word he doubts crazy-famous Nixie Leighton-Brace even knows. Fundraising, though? She's got that one nailed, and Erik's free health clinic is barely keeping the lights on. So when Nixie walks in and asks for a job, he gives her one. But he'll be damned if he hands over his heart along with it. Loving America's princess is no easy task. Neither is being America's princess, and both Nixie and Erik struggle to balance the scars of the past against the demands of their hearts. But with some courage, a little luck and a lot of love, they might just find their way home. Together.

ber den Autor und weitere MitwirkendeSome years ago, Golden Heart Award winner Susan Sey gave up the glamorous world of software training to pursue a high-powered career in diaper changing. Two children and millions of diapers later, she decided to branch out and started writing novels during nap time. The kids eventually gave up their naps, so now she writes when she's supposed to be doing the laundry. She currently resides in St. Paul, Minnesota, with her wonderful husband, their charming children and a very tall pile of dirty clothes. Which have usually been deleted for very good reasons but still.
