Von Brooklyn Ann : Kissing Vicious (Hearts of Metal Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Kissing Vicious (Hearts of Metal Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Hot MetalVon Jim GoforthI like to read and I read a whole lot of different things. Nonetheless, I do have my favourite genres and generally speaking, romance doesnt rank too high there, but there are always exceptions.In the interests of remaining widely read, Im not averse to checking out the odd romance novel or two and when theres a solid injection

of heavy metal into the story, you can guarantee my interest is piqued. Brooklyn Anns Kissing Vicius (Hearts of Metal Book 1) is therefore, just the kind of romance infused book I would be keen to check out and with its strong leading lady and heavy metal hero, it doesn't disappoint. The book revolves around Kinley Black who, along with her best friend Kat, hosts the blog Metalness.com, dealing with all things in the way of metal music. Kinley is no shrinking violet; not only is she a dedicated metalhead who has spent plenty of time playing guitar in local tribute bands, but she's adept at fixing up muscle cars and lugging band equipment around as a roadie (albeit for her own band), as well as standing toe to toe with the guys in fistfights. When an interview with the man of her dreams, Quinn Mayne, vocalist of the band Vicius, leads to her attaining a position with the band as a roadie, she soon finds herself getting far closer to the man than she ever would have imagined in more ways than one. The writing here is smooth, crisp and engaging, and it's quite easy to become immersed in the story and appreciate the various obstacles the strong-willed heroine has to overcome in a world that is largely dominated by males. Character development is excellent and for those who aren't overly knowledgeable about the rock n roll, or metal lifestyle, Brooklyn Ann presents some great glimpses into it (there are a number of characters in Kissing Vicius who certainly remind me of many folk I've met in the scene) and she doesn't sugarcoat it either. Romance is deftly blended with humour, fantasy is tinged with tragedy and the whole thing rolls along, nicely underpinned by a solid soundtrack of metal. It's sexy, it's absorbing and wholeheartedly refreshing and while at the heart of it Kissing Vicius might be a romance novel, there is much more to it than that. Consider me impressed and very pleasantly surprised. Looking forward to book two in the series.

Kurzbeschreibung Aspiring guitarist Kinley Black is about to get her first big break as a roadie for Vicius, her favorite heavy metal band, and for the rock god she always dreamt might make her a woman. **THE ROADIE** At 15, aspiring guitarist Kinley Black wished she were a boy. At 16, after hearing Quinn Mayne sing, she wanted him to make her a woman. Now, at 22, her dreams have come true. Quinn's band Vicius needs someone to lug their amps around the country, to strive and sweat with the guys. She just has to act like one of them. **AND THE ROCK GOD** Quinn had to admit the new chick could pull her weight, but that didn't mean his road manager made the right choice. Taking a hottie on a heavy metal music tour was like dangling meat in front of a pack of feral hounds and Quinn could be part dog himself. But more surprising than her beautiful body are Kinley's sweet licks, so that no man could help but demand a jam session. Quinn will soon do anything to possess her, and to put Kinley in the spotlight where she belongs. And to keep her safe and sound from the wolves.
