**Von Missy Welsh : KLT23: (Gay Scifi Futuristic Erotic Romance) (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised KLT23: (Gay Scifi Futuristic Erotic Romance) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Nette neue Zusatzszene Von emse Kurz, hei, gut, witzig. Und mit einem etwas ausführlicherem Ende als die Erstausgabe. Da

lohnt es sich, zweimal Geld für ein Buch auszugeben.

Kurzbeschreibung In the future, KLT23 has been genetically engineered to be the perfect man and perfect soldier. He is a secret government agency's ultimate success story with his strength, stamina, and intelligence. KLT23 has been exceeding expectations from the very beginning until he developed an illness his doctors can't identify, let alone cure. If they don't do something soon, KLT23 will die. Sergeant Horatio Muir only knows about KLT23 what he's seen from his observation area and the few words they've exchanged when he brings the super soldier his meals. But that hasn't stopped Muir from developing a soft spot for the innocent man he watches every day. That KLT23's illness might kill him plagues Muir until one of the doctors comes up with the theory that KLT23 needs to get laid to release the chemicals necessary to rebalance his system. Fuck or die? Pass the lube.
