Jordan Is it possible to give more than 5 stars, I've asked this before, I don't think so, because if I could it would be 100 stars. Part Two which is a continuation of Part One is so intense, I couldn't put it down. What was Jordan to believe all she wanted to do was cry, the betrayal that whole part of her life could everything that she is being told be the truth, is this old woman really related to her? Was the man in the alley who cut Jude's face really her mate. Impossible no way was any of this true. First of all Jordan can't shift but they tell her she can. Wouldn't she remember something like that, she has never shifted. How can someone kill her whole family because of her Bloodline? I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung After Jordan has been kidnapped by these mysterious men, she wakes up on Kodiak Island. She doesn't understand why she has been brought there and is afraid for her life, When she gets a chance to talk to an older woman who claims to be her maternal grandmother, her world is flipped upside down. She doesn't know who to trust or what to believe. To her it's just a bad nightmare. Has the last 14 years of her life been a lie? Has she been living with the enemy all this time or are these people the ones that slaughtered her family?
