Von Barbara Monajem : Sunrise in a Garden of Love Evil before purchasing it in order to gage whether or not it would be worth my time, and all praised Sunrise in a Garden of Love Evil:

few residents who have a gene that has caused them to sprout fangs during puberty. Ophelia Beliveau is one of those vampires. After years of having to deal with guys who are irresistibly drawn to her, due to her allure, and being constantly stalked by those who believe they cannot survive without her, Ophelia has kept her distance from me. However, her self-imposed exile must end when a neighbor vandalizes her precious garden. Normally Ophelia would deal with the problem herself or call upon the aid of the underworlders who often acted as protectors. But this time Ophelia simply calls the cops. When Gideon O'Toole arrives to deal with the destroyed garden, he is also on his cellular phone trying to convince his sister to have her friend come forward to report that someone is blackmailing her. In fact, blackmail has been spreading all over town, but no one will step forward. Therefore, the police can do nothing. Gideon is drawn to Ophelia immediately - of course. Yet his will is strong enough for him to keep a polite distance and not act like all the other men have. That did not mean he wasn't going to try his best to get the lady to date him - and hopefully more. Soon dead bodies start showing up and someone is trying to frame Ophelia for a rash of crimes. If Gideon cannot clear Ophelia and arrest the real villain quickly, he has no doubt that one of the town's vigilantes will kill him for the failure. ***** FIVE STARS! Definitely one of the best paranormal romances I have read this year. Author Barbara Monajem has made an instant fan out of me. The story grabbed me immediately and never let go. I admit that I did not even try to resist its pull either. The main character of Ophelia came across to me as strong, stubborn, independent, and self-sufficient. However, she showed a bit of vulnerability too. There are also several secondary characters that I could not resist. I hope Zelda (Ophelia's thirteen-year-old niece) and Constantine (a handsome-as-sin vampire rock star) will get their own stories told someday. They managed to steal the spotlight more than once. Downright phenomenal! *****Reviewed by Detra Fitch of Huntress Reviews.
