KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A real page turner! Von peppermint rose These books pull you into Roah and make it an exciting experience from the beginning to the end. The characters and plot are well developed, so that you just want to keep reading, to find out what's going to happen next. Although a romance novel, it's also something younger readers can read. These stories are definitely worth the price! I've read all of Pamela Burns' books so far and am looking forward to her next one.

Kurzbeschreibung This bundle contains the four books of the Sunrise Series. Chasing Sunrise In this first book in the series, Annie and her three young children are caught in an anomaly of space, a portal that transports them into a dangerous and unfamiliar time and place. The kingdom is called Roah, and the laws of a society assuring their safety carry threats as well. Things are not as they appear. Milo, a former physics professor, has been trapped in Roah for twenty years. Christian, a brave and heroic young man has been shunned and abused by his own people. Both are prisoners. When Annie rescues them from their brutal fate, they become her allies, and Christian risks everything, including his heart, to protect Annie and her children until they can find a way back to the life they know. The Return to Roah Beth accompanies her teenage half-sister Tia, and they travel through the portal to the dangerous land of Roah. Tia feels very different from others her age, and to truly understand herself, she wants to meet her birth-father and know his world. On the journey to find Tia's father, Beth begins to care deeply for a soldier in his militia who fights for the innocent males of his race, and Tia must face the Major General's jealousy and hatred of her father as she discovers her destiny. The Healers Fire and Star are transported unexpectedly from their medieval world through the portal opening into Roah. At first sight, Travis is enchanted with the strong-willed, flame-haired young woman named Fire, and though his love is forbidden by Roahn law, Travis cannot resist falling in love with her. Star and Fire are healers, and their knowledge of herbal remedies is much needed to help an injured child. Star's beauty and calming touch are a welcome balm for Christian's battered heart, and compel him to reach for love once more. Tapestry of Destiny In this fourth book of the series, as the families of the Fortress begin to thrive, the laws of Roah and the forces of nature combine to threaten them, and they must stand strong together if they hope to survive. Three individuals travel through the portal, and only destiny and love will provide the meaning for their journey. Casey finds that he is the only one who can save a little girl when she is in danger. By Roahn law, Connor must prove himself worthy to claim Tia. He must win against many challengers, including Ethan, a former mercenary, in a fierce battle contest, or lose the woman he loves. Author's note: These stories contain no graphic love scenes or unsuitable language, and though some of the concepts are of a mature nature, the stories would be suitable for young adults.
