Surprisingly goodVon Moritz DistelmaierDespite or perhaps because of the many Diversions from a "Main" Storyline. I was very much entertained throughout.Recommended for people who like the social dynamics as much or more than

the pure action scenes!

KurzbeschreibungDespite having their secret revealed, the residents of Melbrook Hall return to Lander University for another year in the Hero Certification Program. Good thing the focus of this year is teamwork, because with their origins known theyll have to lean on each other more than ever.Now finally sophomores, their curriculum expands, allowing them to train in the majors that Heroes specialize in. The new classes will test their minds, bodies, and determination in ways never anticipated. In a year filled with the unveiling of secrets, unexpected entanglements, and, of course, super-powered battles, who will be left standing is anyones guess. Because if all that werent enough, more light is being shed on last years kidnapping attempt, and the results point at something far bigger than mere rogue educators. Something that isnt even close to being over with.KurzbeschreibungDespite having their secret revealed, the residents of Melbrook Hall return to Lander University for another year in the Hero Certification Program.
