fun! Von vielleserin Alright, this applies not only to the book but the entire series (so far, I am on book nine): I am really, truly enjoying the ride! BUT! I stumbled across this series by chance and took it up because I liked the style of the sample. But if you are going into this, there are a few things you should know like what to expect and what not. IF you are looking for a book with a difficult heroine and a brooding male counterpart that have to overcome many, many difficulties before finally saving the world - this is not it. IF you are looking for a book that takes everything seriously and has an underlying deeper meaning - this is not it. IF you are looking for a book that has a clear distinction between good and bad and very noble intentions - this is not it. IF you are looking for a book that sticks close to reality and never messes with any kinds of laws whatsoever - this is not it. IF you are looking for a book that will win a highly esteemed literature prize one day - this is also not it (unless they will make a new one up wouldnt mind that)... BUT IF you are looking for a fun book that does not take itself too seriously, a book that has likable villains, sometimes sweet and sometimes annoying heroes, a book where you often need to laugh out loudly because it is so silly in such an entertaining way - THIS IS IT! Plainly put: If you liked the Marvel's avenger movies you will probably like this series, too. I can only say I am hooked. Like I wrote earlier, I am on book nine by now and I only started a few days ago. These books are so much fun to read - some I liked more than others but none truly bored me. There are short and funny. And yes, in between the lines, if you look a bit closer, you will find an underlying meaning after all. IF you read these books you are better not inclined to take the world very seriously all the time and you dont mind accepting others even if they are different :-)) AND IF you love a bit of silliness now and then to take the sting out of life you might even love them as much as I do! 1 von 1 Kunden fanden die folgende Rezension hilfreich. A good Surprise Von Deniz Taskiran First, sorry for my lousy english, I am a german native speaker: The Book itself was a surprise in the good way! Good Plot, likeable Characters and a interesting setting. Maybe a little short, but there are three more books to read...:-)!

Kurzbeschreibung You're probably wondering why we're trying to be so quiet. Well there's a reason. A really BIG reason. He's standing over there--no--to your right--no, THROUGH the fence. Yes, on the other side of the big, nasty looking security fence that is literally shaking because of electric jolts. Yes, him. He's pretty scary looking, right? He's got to be six five, and he's got the face of a serial murderer. It's all sharp and needing shaved. And that whole skin tight prison body suit thing--it's really not fashionable at all, I admit. What? Why's he got a streak of white in his hair? Well, see, that's why we're here. He's a super villain. So why is an innocent little freshman like me and her annoying twin brother sneaking peeks at him through a prison fence? Well... He's our father. At least, that's what we think.
