A Most Heartwarming Crime and Detection StoryVon Donald Mitchell"But for him who is joined to all the living there is

hope, for a living dog is better than a dead lion." -- Ecclesiastes 9:4 (NKJV) Most crime and detective stories ratchet up the horror as a way to escape from having to write an entertaining story. In doing so, the victims are usually carted off the the morgue in a trail of blood and guts. After reading about the details of their autopsies, we don't hear or think much about them. Robert Crais has written a much different kind of story. His narrators (LA police officer Scott James and former Marine, the German shepherd Maggie) are both victims of violence who carry the scars on their bodies and in their memories. Lacking the kind of physical strength they had before being badly injured, they draw on courage to do their best. Will it be enough? The story has enough heart in it to carry three and a half stories to great success, yet the book doesn't seem overdone. There's an authenticity in caring about those who are severely harmed in the line of duty that makes this book stirring in many ways. As someone who loves dogs, but doesn't know a great deal about German shepherds and war dogs, I was impressed by how deftly the necessary information was inserted to fill me in. I thought it was sheer brilliance to have Maggie narrate parts of the story. If anyone will complain about this book, it will be that the mystery and detection seem a little more clumsily written than might have been expected. I'm sure you'll figure out who did what to whom and why. But that felt like a minor matter to me compared with the fun of reading the story and being encouraged by it. Bravo, Mr. Crais!

Nette Geschichte aber kein Vergleich zur Cole / Pike Serie. Ich sehe kein Potential darauf eine neue Serie aufzubauen.
3 Sterne, aber nur weil es der Autor eigentlich besser kann.

Kurzbeschreibung
LAPD cop Scott James is not doing so well. Eight months ago, a shocking late-night assault by unidentified men killed his partner Stephanie, nearly killed him, and left him enraged, ashamed, and ready to explode. He is unfit for duty - until he meets his new partner. Maggie is not doing so well, either. A German shepherd who survived three tours in Iraq and Afghanistan sniffing out explosives before losing her handler to an IED. They are each other's last chance. Shunned and shunted to the side, they set out to investigate the one case that no one wants them to touch: the identity of the men who murdered Stephanie. What they begin to find is nothing like what Scott has been told, and the journey will take them both through the darkest moments of their own personal hells. Whether they will make it out again, no one can say.
