Von Jennifer Gibson : Sway (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sway (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Stepping into a girl's lifeVon hippoleinHaving a father who has hearing problems (due to medicine side-effects), I found it very interesting to read this book.Considering this is a book written for young adults, I find it a very good introduction to the world of hearing impaired people, and the problems they go through during their life. As this is a girl going to

school, you get a very strong anti-bullying message and you get a deeper insight in the life of just this one person and the persons she interacts with. I missed a bit of a red thread through the book, some kind of general story, but liked it really a lot anyway. Would certainly advise this to young adult and adult persons who are interested in the topic and are not "allergic" to romance situations!

Kurzbeschreibung There was something different about Jessie. She struggled to fit in at school, surrounded by a web of lies and deceit...until she met Ethan. Based on a true story, the novel Sway is about a hearing impaired teenager named Jessie who tries her best to blend in at school. Every day proves to be a test of her resolve when she is constantly plagued by the ruthless pranks of her classmates who are determined to make her life miserable. When a handsome stranger arrives in the nick of time, Jessie wonders if he is too good to be true. Is Ethans attention genuine, or will he betray her trust, too?
