and funny college romance - I read it in one sitting and now I need to read #2 to know what will happen to everybody :) I reallllly love the cover - even though it doesn't really have anything to do with the story ;) except for one scene maybe :))) 0 von 0 Kunden fanden die folgende Rezension hilfreich. incredibly great, fantastic!!! Kurzbeschreibung College life is the best time of life. Claire is convinced of this when she moves in with her cousin at a neighboring city. At least until she meets two men who couldnt be any more different, and who turn her life upside down. On the one hand, theres the big-man-on-campus Taylor, who turns out to be an absolute dream man, and, on the other hand, theres the aloof womanizer Jason, who drives her crazy with his in-sinuating remarks. And, in the midst of this confusion, Claire has to deal with her chaotic cousin, her studies, a job, and many other problems, as well. This is the first part of Sweet Chaos.
