Von Cari Silverwood : Take Me, Break Me, Book 1 (Pierced Hearts) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Take Me, Break Me, Book 1 (Pierced Hearts) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. High Octane Kink, Higher Octane HeartVon Trent EvansWhat happens when a woman's fantasy runs much deeper than she'd initially thought? And what does she learn when her exploration of that fantasy is taken almost totally out of her

control? This is the captivating premise for this novel. Ms. Silverwood's skillfully crafted story sneaks up on you, introducing you to the heroine Jodie, a woman with complex motivations, and the hero Klaus, a man of outwardly serene, even uncomplicated, demeanor. Right away, you want to learn more about these people, and what's really going on between them -- and the author gives you just enough to keep you feverishly turning the pages. Then, like a roller coaster plummeting down that first exhilarating drop, the story takes hold of us and doesn't let go. Wow. There is some great writing here: crisp, efficient characterization, flawed, but appealing main characters you can't help but like, and a fascinating (and arousing) evolution of the central relationship at the core of the story. Most of all, this story is just plain smokin' hot. I was very impressed with the author's ability to dance right up to the edge of the non-con abyss, giving you a nice, long glimpse into the darkness, but never quite shoving you off the precipice. She makes you care for these characters, to root for Jodie to finally embrace what she really wants, and how she feels, and for Klaus to stop denying what he really is. I loved them both, even though at different times I wanted to shake some sense into each one of them. As for the content, those readers averse to dub-con, or consensual non consent, are not going to be comfortable with this one. At all. If you're looking for gentle Doms and doe-eyed innocent subs, you should look elsewhere. If you want a "sub-is-the-real-one-in-control" dynamic, you're barking up the wrong tree here too. These are real people confronting the gritty realities (and erotic possibilities) of the exploration of a dark sexual fantasy. For those readers who enjoy dub con, or non con, or a not insignificant amount of pain, you're going to love, LOVE this book. The D/s in this is real, and honest, and raw, and not for one second do you find yourself not believing the story as these two explore it. I had to put it down several times and just mutter an awed "whoa". To me that is the sign of a great book. This is an excellent BDSM erotic romance. Do NOT miss this one.

Kurzbeschreibung Genre: BDSM Capture fantasy Jodie is scraping the barrel trying to stay afloat. An idea arrives that could rescue her finances and bring her together in a kinky way with a man she never gave up on. She's terrified and fascinated, and tempted as hell. Capture fantasies rule her eBook. Re-enacting one in a documentary would surely be irresistible viewing to millions of women? But Jodie and Klaus discover that underneath an ordinary man dark desires may lurk. What will win in the end? The man and lover, or the monster? Warning: Capture fantasy; BDSM themes including caning, spanking, bondage, and needle play. Also contains one beginner Dom who is exploring sadism but is still working out how and when to stop. Take Me, Break Me, Book One of my Pierced Hearts series, begins the descent into dark erotica. The sequel, Bind and Keep Me, hurtles into the darkness. All five books in the Pierced Hearts series are now published. Kurzbeschreibung Genre: BDSM Capture fantasy Jodie is scraping the barrel trying to stay afloat. When you need escape, when you need that rough lover to bring you to your knees, here you will find stories to singe your fingers. The taste of adventure, the tang of BDSM, the burn of fantasy run wild. Brace yourselves, if you dare to read. And...in this real world, she has a lovely family in Australia, with the prerequisite teenager who dwells in the dark bedroom catacombs...a husband who raises eyebrows when he catches glimpses of what she writes, and a furry menagerie of other animals barking, meowing, and swimming about the place.
