Von Cindy Dees : Take the Bait before purchasing it in order to gage whether or not it would be worth my time, and

all praised Take the Bait:

Kurzbeschreibung More than just eye candy Rookie attorney Dani Wellford's taciturn client has the strangest request: "Send me to jail." Easy case, right? Wrong, especially as she faces Cam Townsend, the hot assistant DA who's hell-bent on seducing her and winning the case. The way he wears his suits should be a crime; he gets Dani's mojo going, in the courtroom and the bedroom. Before long, their professional ethics are more tangled than the bedsheets. But when Dani goes to battle against her firm's old-boy network trying to prove a hefty case of discrimination, she ends up with the most unexpected ally and perhaps just the right bait for a lifelong sentence.
