#StandingOvationsVon Martin StrutzGreat! I enjoyed Dan's first novel a lot.. It surely doesn't feel like a 'first' to me -

super well written. Dan is a great observer. Details feel real and authentic; all characters are thoughtfully crafted. I didn't know anything about the plot when i started, but it reveled itself slowly with every new page. Definitely looking forward to meet rising agent Perez again.1 von 1 Kunden fanden die folgende Rezension hilfreich. Take Your Shot and read it!Von KundeDon't be misled by its rather low price, this is the work of an experienced writer. Take your shot is really fun to read and it's hard to put it down once you've dived into the life of FBI agent Mario Perez and his family in L.A. The plot builds up in four separate story lines of each family member that all tie together in an exciting finish. If there will be a sequel, I'll definitely buy it!

KurzbeschreibungFor as long as he can remember, Mario Jr has had nothing to talk about with his father. But then he takes a job at a luxury retail shop owned by the mafia and everything changes. Mario Sr, an FBI agent wholl do anything to put his career back on the fast track, suddenly takes a keen interest in his son who is now a valuable asset in a very important case. If he can crack this one, hell be one step closer to turning THE DREAM into reality. From the bowels of the FBI to the taqueria around the corner, Take Your Shot is a satirical coming-of-age tale full of organized crime, disorganized deceit, and deadly ambition.KurzbeschreibungFor as long as he can remember, Mario Jr has had nothing to talk about with his father.
