Von Ingrid Stephanie Jordan 5 Stars Title: Taken Series: True Mates: Book 2 Author: Olivia Arran Reviewer: (Ingrid) Stephanie Jordan #Paranormal #WolfShifter #JaguarShifter This is quite a series especially this exceptional book. Ms. Arran has me wanting to read every book of this series I just can't quite. We continue right from the ending of Promised, Lisa is kidnapped by Eric sending his goons to hold her hostage so Kara mates with Eric. BUT nothing stand in the way of a Wolf and his True Mates. Luisa aka Sexy Lisa is a Black Jaguar Shifter who has befriended Kara and helps her escape Eric, only to find a Sexy Hot Hunk who she craves yes the two would be explosive together. Maybe staying a Wolves Den won't be so bad after all, she could help Kara and play with hot Wolfie. Sean is the Beta for the Alpha James Colstone of the Colstone Pack. Been James's right hand wolf for years, then he sniffs Lisa and realizes she a Feline. Oh no he's staying far away from her, why would James bring a Feline to a Wolves Den? Look at her in those sexy heels and a dress so short she's showing everyone her a**. But when Sean finds out Lisa has been Taken he see red and vows he will get her back, there will be blood. I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung Being with her is like standing a little too close to the sun Beta Wolf Sean Colstone has a mission to recover a kidnapped jaguar shifter, and deliver her safely back to the pack. The only problem? He suspects that wildcat Lisa is his true mate. There's something about the curve-packed petite bombshell that gets under his skin, heating his blood, and threatening to destroy his well-honed discipline of control. He clings to his control like a well-worn blanket one she'd like to rip right off Smart talking jaguar shifter Lisa Shadowpaw is a lone cat, and she likes it that way. Dragged into a fight between two wolf packs by her best friend, she's just waiting for a chance to escape her kidnappers grasp. She can't count on anyone coming to rescue her, least of all Sean after all, he made it very clear that he didn't want her But no matter how much she tries to convince herself to just forget the hot, sexy shifter, she can't get him out of her mind or her heart. When Sean's control finally breaks, can Lisa tame his beast or will his past consume them both? **This book is intended for readers 18+ and comes complete with a HEA** It is recommended that you read this series in order, starting with Promised: True Mates Book 1.
