Von Michael A. Stackpole : Talion: Revenant (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Talion: Revenant (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Fortsetzung gewünscht Von Kindle-Kunde Talion: Revenant soll wohl das erste Fantasy Buch von Michael A. Stackpole sein. Wenn dem so ist, fallen seine anderen Bcher in diesem Genre im Vergleich dazu ab. Es ist ein echtes Vergngen den beiden Handlungslinien in Vergangenheit und Zukunft zu folgen und zu sehen wie sich die Geschehnisse der einen Zeitlinie in der anderen auswirken. Dieses Buch zu lesen, hat mir groe Freude gemacht. Es zahlt auch nach 10 Jahren immer noch zu meinen absoluten Favoriten. Das einzige Manko ist das Fehlen einer Fortsetzung in dieser Welt und mit diesen Charakteren. 1 von 1 Kunden fanden die folgende Rezension hilfreich. This is an excellent fantasy novel overall Von Ein Kunde There is plenty to keep you going here. Detailed history that clearly flows into the present. Interwoven national relationships. Relatively original concepts in magic. There is a single viewpoint character,

this lends enormous strength to the book. The one drawback was the alternating progression of the story by chapter. That is to say, chapter 1 begins with the character in the "here and now" of the story, chapter 2 jumps back to the beginning of the character's history, chapter 3 picks up where chapter 1 leaves off, chapter 4 picks up where chapter 2 left off, etc. Even chapters tell the story from the point where the main character joins up with what amounts to being an international police force (fantasy style), and continues with this until the last even chapter of the book. Chapter 1 actually begins where the last even chapter of the book leaves off (almost). The odd chapters tell the rest of the tale from there. I'm not sure what was gained by this, because as soon as I started chapter 3, I skipped ahead and discovered what I just related here. I then read all the even chapters, and all the odd chapters. It was quite a page turner. I found the sequential presentation of the story that I artificially created by my odd read of the book to be entertaining. I personally have a tough time being yanked back and forth in time and space in a story, so reading it the first way wasn't really an alternative. I felt my money was well spent, and I'll continue to buy and read this author's novels; and will continue to recommend them to others. 1 von 1 Kunden fanden die folgende Rezension hilfreich.

Talion: Revenant Von Ein Kunde I read a lot of fantasy books like Katharine Kerr, Katherine Kurtz, Raymond E. Feist, David Drake, L. E. Modesitt Jr., Robin Hobb, George Martin and Robert Jordan. Stackpole belongs right up there with the rest of them with this book. When I'm looking for a good book I don't look for grammar and exact historical wording I look for a jump out there story that will keep me reading until the finish and then wanting more which this book has done everytime I've read it. Of course the drawback is that he hasn't written part two yet but I guess I will just have to wait.

Kurzbeschreibung The man he is sworn to protect is the man who butchered his family. Justice the select of the Talions, endowed with fearsome magick and lethal martial skills roam the Shattered Empire, crushing the lawless and championing the oppressed. Their word is law and their judgment binding on highborn and low. Nolan is a Justice born in what once was the free nation of Sinjaria. Orphaned in the war of conquest with the nation of Hamis, he traveled to far Talianna and secured the right to become a Justice. Now, years later, the Master of all Talions has a dangerous assignment for Nolan: he is to guard the life of the king who destroyed Sinjaria and slaughtered his family. Alone, Nolan ventures into the political maelstrom that is the court of Hamis to stop an assassin even his Masters think cannot be slain...
