Von Stephanie Nelson : Taming the Wolf (The Anna Avery Series - Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Taming the Wolf (The Anna Avery Series - Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. not so much depth, loads of hotnessVon NanaI can't believe so many people gave this book 5 stars. I mean, I get it, there is sexual tension everywhere in the book, since there are a lot of excuses for the characters to take their clothes off - but seriously, people either must have shut their brains off, or I had a really bad day and took too much thought in the book. I can't explain such good reviews in any other way.Let's start off with the characters. We have Anna, who wants to find love, friendship, acceptance and respect and is very displeased with how the pack treats her. She doesn't like the whole hierarchy concept that keeps the pack together and isn't afraid to stand up for that, even in front of Adam, her pack alpha. I like her bravery, as well as that she is not willing to let her inner (very sexual) wolf take over.We also have Adam, who is actually already mated with Eve (Adam, Eve.. well done -.-), who starts off creating the image of a cocky, overly self-confident leader. I disliked him a lot at the beginning and could not understand how Anna could still only think about his hotness (sexy and knows it, ugh.). Sweet Jesus, if a guy acts like a total jerk and gets a boner every time you only take a look at him, then what would you do in real life? Yup, you would probably not consider him as a perfect lover. Sorry, my opinion. Anyways, his character evolves from one day to another and suddenly he's the loving guy. Okay.Let's neglect the fact that I didn't like most of the characters and how the story started off 3 months after she was turned (I guess the author wanted to add some originality with this move). The dialogues seemed a little too stilted for my taste. People gave away too much information too quickly and I was also very surprised how the author always came up with some sex around every corner. That was just too much. Don't get me wrong, I really like hot scenes, there should be good hot scenes in every book(!!!), but I didn't feel the spark here. I sometimes even imagined the author sitting in front of her computer, like: "How can I add a boner to this scene?". In addition, I also thought that the scenes when Anna screwed around were a much better read than her long-awaited night with Adam. Boooh.To also mention an aspect that I LIKED, the crime part was very nice! I wondered a lot about who was the killer, so this was very entertaining. A plus for that. I was very surprised towards the end :)Summing up, I can recommend this book to any readers who are looking for a quick and hot read, yet not for too much depth in the relationships of the protagonist. There are so many good books dealing with werewolves and other paranormal themes but this was definitely not one of the better reads for me. I give 3 of 5 stars.0 von 0 Kunden fanden die folgende Rezension hilfreich. Taming The Wolf (The Anna Avery Series - Book 1)Von Lily M.The "Taming The Wolf" by Stephanie Nelson is the first book in the "Anna Avery" Series and it starts with Anna being attacked by a wolf while hiking and so turning into a werewolf. She lives in the Big Horn mountains in Wyoming with a group of werewolves and trying to hold onto her human side.In this book we have Sawyer, a wolf who tries to become her mate, and Adam, the sexy hot alpha who continues to persuade her into his bed as well.To top it all off, dead bodies are showing up and it just happens that she was the last to see them alive. She has to prove her innocence.Let me say that I read all Stephanie's books ("Gwen Sparks" Series) and loved them!! So, I was a little scared about starting a new series by her...honestly I don't know why...Anyway I finished this book in a day, I really enjoyed reading this....it's a hot sexy fast paced story.I love the "Gwen Sparks" Series and this new Series definitely doesn't disappoint!!Looking forward for the next book in this Series.

KurzbeschreibungAttacked by a wolf while hiking, Anna Avery's life just got a little hairier. Living in the Big Horn mountains in Wyoming, with a group of werewolves who are more animal than human, Anna must try to hold onto her human side. It's not easy when the alpha continues to persuade her into his bed, while another wolf is chomping at the bit to become her mate. To top it all off, dead bodies are showing up and it just so happens that Anna was the last to see them alive. She'll have to work to prove her innocence and taming the wolf who bites first and asks questions never.Because of the sexual nature, this book is intended for readers 18 and older.KurzbeschreibungAttacked by a wolf while hiking, Anna Avery's life just got a little hairier.
