Von Christine Elaine Black : Taurus (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Taurus (English Edition):

KurzbeschreibungImperial Desire Series ~ Book 2Rebellious and strong-willed Kalliassa flees a political betrothal

arranged by her brother, the emperor of Rome. She runs to the one man capable of preventing the match -- her brother's sworn enemy. Unwittingly, she throws her fortunes into the hands of a man pledged to destroy Roman rule. Taurus, proud Governor of Panua, would do anything to provoke the emperor, even ruin an imperial sister. But Kallie is like no woman he's ever met, and she tests his strength of will and his solemn vow to end the reign of her family forever. Can true love overcome lust, lies, and deceit?
