Von Missy Johnson : Tease (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tease (English Edition):

This is a fab story about a male escort called Coop. I loved the storyline of this book. It wasn't all sex sex sex.... However I must say the sex scenes were fantastic wink wink

:)On a cold winters night this is the ideal book to get you all warm.I have read a few of this authors books I've loved them all.Received in return fo an honest review.0 von 0 Kunden fanden die folgende Rezension hilfreich. this book had potentialVon M.J.MILD SPOILERS!this book had a lot of potential, but the author didn't use it.i like my books to be as authentic as possible. i found it unbelievable that a seasoned escort has a private relationship with one of his clients and considers hers one of his best friends but she has to pay for sex with him... and i find it highly disturbing that said escort goes down on his clients without dental clamps and lets them go down on him without a condom, especially clients he has never met before... what annoyed me, was that coop once said, he faints when he sees blood and then decides to become a doctor...coop was a really funny guy and there were some extremely funny scenes and thoughts which, if the author would have continued like that, would have made this book an all time favorite. unfortunately, the author seemed to hop from one thought to next and back and so.i loved that the whole book was from coops (a male) pov and that we DIDN'T get a look in mias- or bethanys- thoughts!all in all a enjoyable read with a few extremely funny moments but a lot of unused potential
