**Von William Shatner : Tek Power (The TekWar Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tek Power (The TekWar Series):

It is not bad, but also not particularly memorable. For all those Star Trek fans out there, don't bother, as this is nothing like Star Trek . . . although if Shatner hadn't been riding on his Star Trek fame, this book would have probably never have been published. His writing style

is very gritty, something like Robert Heinlein, although not quite as bad. The book is really more of a detective/police story (the "T.J. Hooker" influence, no doubt) set in the future. If you like police stories, you might like this, but frankly, I was not much impressed. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Tek is back Von Chip This book makes a great edition to the world of Tek, Shatners flair for writing is expressed and it does more for the imagination than the TV series could! 1 von 3 Kunden fanden die folgende Rezension hilfreich. Seichte Unterhaltung Von Ein Kunde Wer htte es gedacht. Kaptain Kirk schreibt Bcher. William Shatners TEK-Reihe mag zwar in den USA gut angekommen sein, allerdings sind die Stories um den Protagonisten Jake Cardigan nicht sonderlich originell. Wer Science Fiction mag, wird allerdings auf seine Kosten kommen. Die Bcher sind eingnglich geschrieben und bieten gute Unterhaltung. Wenn jemand allerdings ein literarisches Meisterwerk erwartet und berraschende Handlungstrnge sucht, wird enttuscht.

Kurzbeschreibung Private eye Jake Cardigan must derail an insidious plot by the ruthless Tek cartel to replace the US president with an android designed to do the groups dark bidding William Shatner, the original face of Captain Kirk on TVs Star Trek, displays another side of his remarkable talent with his sixth excursion into a future world where the ubiquitous techno-drug Tek rules, and one man remains dedicated to wiping the scourge and its criminal suppliers from the face of tomorrows Earth. Jake Cardigan ex-cop, private investigator, and former Tek user has been given a special assignment by the head of the Cosmos Detective Agency: to track down the murderer of his daughter-in-law. It is a job that takes Jake and his partner, Sid Gomez, from Los Angeles to the East Coast and into the heart of a terrifying conspiracy surrounding the president of the United States. Unbeknownst to the nation and the world, President Warren Brookmeyer, a Tek addict, is in rehab and has been temporarily replaced by an android replica, indistinguishable from the real chief executive. But the brazen scheme to shield the country from the truth is, in reality, the brainchild of the ruthless and powerful Tek Lords, who intend to keep the simulacrum in power indefinitely in order to alter official policy concerning the dangerous mind-enhancing electronic drug. If Jake and Sid fail to expose and eliminate this treasonous plot, the president will surely deal along with liberty, the law, and the twenty-second-century American way. This ebook features an illustrated biography of William Shatner including rare images and never-before-seen documents from the authors personal collection.
