Von Laurence Dahners : Telekinetic (a Hyllis family story #1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Telekinetic (a Hyllis family story #1) (English Edition):

GeschichteVon CustomerIch hab das Buch gekauft, obwohl ich befurchtet hatte, es handelte sich um eine der blichen Dystopien. Das Post-Weltuntergang-Szenario ist aber nur ein Rahmen, um die Frage

zu stellen, wie sich telekinetische Fähigkeiten manifestieren könnten. Das war dann relativ logisch geschrieben und hat mir beim Lesen einfach Spaß gemacht. Das Buch ist nicht ganz so gut wie die ersten Ell Donsaii Geschichten, trotzdem 5 Sterne, weil es sich wohltuend von der Masse abhebt. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Great Read Von Francois Uldry Got it through Kindle Unlimited. It was a surprisingly great read, that got me to buy the current complete series. M. Dahners got it right : first book as an unlimited read, then the other volumes in a series cheap but requiring payment. I appreciate the approach, it is smart.

Kurzbeschreibung Telekinetic is the first of a series of stories featuring the Hyllis family, who tend to inherit telekinetic talents. The story is set after a plague induced apocalypse. The resulting collapse of civilization has reduced mankind back to iron and horsepower. Tarc Hylliss mother (and his grandfather before her) could feel things with their talent. They became healers because of their ability to feel inside their patients. This frequently lets them diagnose the underlying causes of an illness. Having made a diagnosis, unfortunately, there is all too often very little they can do to treat the problem. Tarcs father can push objects with his mind, but because he cant feel inside of anything, he doesnt know where to push in order to help to treat his wifes patients. Tarc is just gaining the ability to do both of these things. The combination of these two powers will let him both diagnose a physical problem such as bleeding and also stop that bleeding by applying pressure inside the patient. This is a very exciting development for his mother, who so often has had to watch her patients die for lack of effective treatment. Then some strangers show up to scout the town where the Hyllises live. They plan and initiate a violent takeover. Can Tarcs powers, weak as they are, play a role in resisting this invasion?
