Surprising!Von NinaNow this was a surprise! TELL ME A SECRET by Ann Everett is divided in two parts, taking place several years apart, but I absolutely did not expect the turn this story made in its second part and I loved it!! The title fits the book just perfectly and it is going to be real hard to write a review without spilling any of these secrets.Maggie Fielding is a senior at college with a brain bigger than her chest size, is hiding behind baggie clothes

and still a virgin Jace Spalding is a handsome jock at college, playing football and screwing every woman that comes up in his path. Jace has a family out of the storybook; loving parents, a wonderful big brother and even a dog Maggie only has a mother who never wanted her. Apart from visiting the same college they hardly have anything in common. When her professor asks her to tutor Jace, Maggie is anything but delighted. She accepts but decides to ditch him after a few sessions. Only she didn't reckon with Jace's pride: He has never met a woman who was able to resist his good-looks and charms and that makes him even more determined to have her. Instead of quitting after a few weeks, weeks turn into months, Maggie even gets to meet Jace's loving family and somewhere along the way while getting to know each other they become friends and start developing feelings for one another. Their lives continue like a fairytale and they are happy until tragedy strikes. Is their love Maggie's love strong enough to overcome it all? The first part of this story runs very smoothly and kind of languished a bit and was predictable then came part two out of nowhere and I was completely knocked over and blown away no way was I expecting this turn of the story! It goes deep and had me in tears, which doesn't happen that often to me while reading. So I'm giving part one 3 stars and part two 5 well-deserved and heartbreaking stars, which sums up to a total of 4 stars. I'd highly recommend it to every romance lover for this second part alone!

Kurzbeschreibung Jace Sloan has it all. He's smoking hot, a college football star with a storybook family, and he's never met a woman he couldn't charm. He's also never met one who makes him want to be a better man...until he meets Maggie. Now, this self-proclaimed geek with wild red hair and the greenest eyes he's ever seen has him thinking all kinds of crazy thoughts. Like settling down and being a one-woman man. Maggie Fielding is anything but Jace's type. For starters, her IQ is bigger than her chest size. But Jace is panty melting hot, and she's having a hard time remembering that he's had bad news. If only she could stop telling him her secrets, because her answers to his questions just might have both of them falling in love for the first time. ****author note: There is NO adultery in this story. Only temptation.**
