who is a small city cop is investigating a murder of a store owner which looks like a robbery. But then he finds a connection to a high-calibre businesswoman, A.J. Baker. She denies any involvement until he finds her in the dead man's flat. He knows she's lying to him and keeping lots of secrets, but what are they and does he even really want to know? Even though he's attracted to her does he want to get involved with a woman who trusts no one when he's got so many problems himself? Alex Baker has worked her whole life to get where she is now, namely close to avenging her father's death and clearing his name. But to get there she's had to lie to almost everyone she knows and hide her past and keep away from any personal involvement. Now she's so close to her goal a tenacious policeman could put her whole plan in jeopardy and himself in terrible danger. Does she dare to confide in him as she longs to do and give in to her attraction but risk him getting more involved and not only messing up her plan but also getting himself in the line of fire of her dangerous life? The book was exciting and really quite good, the only thing I didn't like was that for a story about dangerous international crime the solution was a little easy and Hank a little too good at international intrigue for a small city cop. The story was a bit short, it could have been developed more and turned into a real fun spy-thriller, but it was still really good and the romance was beautiful. Definitely to be recommended, as are the other Annie Solomon novels I've read.
