Von Sidney Sheldon : Tell Me Your Dreams before purchasing it in order to gage whether or not it would be worth my time, and all praised Tell Me Your Dreams:

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. Typisch Sheldon: ausgesprochen lesenswert!Von MeinereinerEin spannendes und bis zum Ende packendes Buch, das uns

besonders in der englischen Originalversion begeistert hat. Wessen Englischkenntnisse "eingerostet" scheinen oder noch nicht ganz so umfangreich sind, sollte vor allem die nicht bersetzte Ausgabe wählen, da die Ausdrucksweise leicht verständlich und flüssig zu lesen ist. Auf diese Weise beschert das Buch in doppelter Hinsicht Vergnügen - inhaltlich und sprachlich. Ein insgesamt sehr gutes Buch, das mit Überraschungen aufwarten kann. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A great page turner. Von PGF Heil This book is full of suspense and the characters are easy to sympathise with. I started reading it, and I couldn't put it down. Despite other opinions, I would not say that the ending of this book is predictable. 2 von 2 Kunden fanden die folgende Rezension hilfreich. Excellent Book... Von Ein Kunde This was the first Sidney Sheldon's book I've ever read, and absolutely fantastic, the climax involves the reader in an exciting desire to read what happens next and next...well, at least for me. I'd say 5 stars aren't enough to evaluate Sheldon's book performance, and I strongly recommend Tell Me Your Dreams to all who appreciate thriller and suspense, have fun guys...

Kurzbeschreibung The fast-paced novel from the internationally bestselling author of *The Best Laid Plans*, *Morning, Noon, Night* and *Bloodline*. Someone was following her. She had read about stalkers, but they belonged in a different, faraway world. She had no idea who it could be, who would want to harm her. She was trying desperately hard not to panic, but lately her sleep had been filled with nightmares, and she had awakened each morning with a feeling of impending doom. Thus begins Sidney Sheldon's chilling novel, *Tell Me Your Dreams*. Three beautiful young women are suspected of committing a series of brutal murders. The police make an arrest that leads to one of the most bizarre murder trials of the century. Based on actual events, Sheldon's novel races from London to Rome to Quebec City to San Francisco, with a climax that will leave the reader stunned. **de** Meet Ashley Patterson, the brainy, babelicious "computer whiz" and confused heroine of *Tell Me Your Dreams*. Although she has a cushy job at Global Computer Graphics, a fast-growing start-up in California's Silicon Valley, her life seems to lack fulfilment. She's lonely, shy, and absolutely convinced she's being stalked. What's worse, the only sympathetic ear around is her father, Dr Patterson, the heartless heart surgeon, who has the charm of an electric eel and the compassion of a tarantula. Given her options, Ashley looks to the heavens for support and offers up an ultimatum to the Almighty: "I'll make a deal with you, God. If it doesn't rain, it means that everything is all right, that I've been imagining everything." Of course, it starts raining buckets just paragraphs later, setting off a car alarm of an omen about our computer cutie's fate. Enter Toni Prescott and Alette Peters. They both work with Ashley at Global Computer Graphics, but the similarities end there. Toni is a saucy, British vixen with a penchant for Internet dating and discotheques. La bella Italiana Alette, on the other hand, is a wannabee artist who prefers quiet, dreamy weekends with beefcake painters. Reminiscent of junior high school, Toni and Alette do their best to keep Ashley out of their cool clique, but find it difficult when a string of murders irrevocably binds them together. Based on a true story and laden with realistic details-- not to mention a whopper of an ending--*Tell Me Your Dreams* is vintage Sheldon. However, there is one necessary caveat: avoid moviegoer types who insist on telling you the entire plot before you have a chance to see it. You should be doing this anyway, but take extra care with this book. Once the surprise ending is blown, so is the fun in reading it. --Rebekah Warren.co.uk Meet Ashley Patterson, the brainy, babelicious "computer whiz" and confused heroine of *Tell Me Your Dreams*.
