Von Vince Flynn : Term Limits (English Edition) before purchasing it in order to gage whether or not it would be

worth my time, and all praised Term Limits (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Fun and EntertainingVon RickSI hadn't heard of Vince Flynn until I received Term Limits as a gift. Now I can't wait to read Transfer of Power. I found Flynn's first book entertaining and exciting with a great balance of detail and action. The characters were clearly developed and not tediously so. This book has everything I like in a novel. I had fun from start to finish and highly recommend this book to anyone.1 von 1 Kunden fanden die folgende Rezension hilfreich. A interesting look at alternative political actionsVon Ein KundeThe author assured me while autographing the book that if a person enjoyed novels on politics and the accompanying intrigue that I would find this one to rate right up there with Clancy. I thought this to be awful confident for a literary unknown, but after finishing it by staying up until the wee hours of the morning I found this unknown to be right and am patiently waiting for the next novel. The story itself is entirely plausible considering the current political situation in this countryThe scary part is that it shows how such things could easily be accomplished. Change names, a few titles here and there to match today's politics to the story line and there you have it, Term Limits. Is this Alternative History ? A novel and author people can learn from.0 von 0 Kunden fanden die folgende Rezension hilfreich. The Book has no resolution!! :(Von Ein KundeI was enthralled with the topic and liked the cover and the beginning of the book was fine. It dragged a bit in the middle, but the plot was interesting enough. As expected, as things (apparently) began to wrap up toward the end, there were some interesting twists, BUT (and this is totally weird) the book didn't really resolve the initial conflict laid out at the beginning. There was no outcome!The plot starts like this: basically some ex-SEALs, funded by a rich guy, begin to take out some congressmen and submit a demand for the politicians to set partisan bickering and special interests aside and balance the budget immediately. Congress is right at the voting stage of the budget and locked in wrangling with the White House, and these "terrorists" are initially ignored, and so goes the intrigue and the plot thickens.Well, without wasting my and your time, the end of the book does nothing to resolve this issue!! I was stupified. It didn't even leave us with a sense of what happens to most of the main characters in the book. Weird. Very weird.Well, there was more to read after the book ended. There was an excerpt from Transfer of Power to supposedly whet the appetite for more. Surely, I thought, this next book would be the sequel. I am not terribly thrilled by sequels, but if that is the way they want to do it, OK. But guess what? Transfer of Power is a whole 'nuther story! New Presidential administration and everything. NOTHING to indicate that the most important question of Term Limits will get resolved!!!!

Kurzbeschreibung#1 New York Times bestselling author of American Assassinsoon to be a major motion pictureTaking America back...one politician at a time TERM LIMITS In one bloody night, three of Washington's most powerful politicians are executed with surgical precision. Their assassins then deliver a shocking ultimatum to the American government: set aside partisan politics and restore power to the people. No one, they warn, is out of their reach -- not even the president. A joint FBI-CIA task force reveals the killers are elite military commandos, but no one knows exactly who they are or when they will strike next. Only Michael O'Rourke, a former U.S. Marine and freshman congressman, holds a clue to the violence: a haunting incident in his own past with explosive implications for his country's future.... "Ingenious....Outpaces anything recently published, including Baldacci and Clancy." -- Florida Times-Union Includes an excerpt from Memorial Day, Vince Flynn's electrifying new hardcoverFrom Kirkus sAn underwhelming first technothrilleroriginally self-published. "One man's terrorist is another man's freedom fighter," says Michael O'Rourke to his girlfriend, thus justifying the triple murder of a US senator and a pair of congressmen. They didn't deserve to live, he further insists, guilty as they were of mismanaging their country's business. In fact, virtually all politicians--Republicans and Democrats alike--are similarly guilty. Still, the assassinations are meant not merely as punishment but as a warning. Politicians had better shape up, be upright, set aside partisanship, and balance the budget. Or else. Young Michael, the hero of Flynn's dismal fable, is himself a congressman--the exception that proves the rule. He's sore at his government and has his reasons. His parents were killed in an automobile accident; the driver of the other car, it turned out, was a drunk, a repeat offender, who should have been off the streets, in jail. Due to the aforementioned mismanagement, however, the government can't build enough prisons. Nor is this mismanagement accidental; rather, it's the inevitable result of self-serving cabals and wicked conspiracies. And as a variety of the aforesaid cabals maneuver to stop the terrorists, Michael finds himself caught squarely in the middle, very much on his own. While there are conspiracies galore here, much of the novel has an undercrafted feel to it: one-dimensional types, clumsy, often careless writing. (Flynn's heroine has "big brown eyes"; a "freedom fighter" has "bright blue eyes"--information delivered frequently, each time as if newly minted.) At length, the cabal is thwarted, the once misunderstood terrorist vindicated. "You're not going to believe what's on this," Michael says, handing over the tape that reveals the depth of the conspiracy. He's right. A sure-fire hit for readers who share Flynn's political outlook--the government as ogre. (Author tour) -- Copyright 1998, Kirkus Associates, LP. All rights reserved.From Library JournalAdequate production values and a serviceable reading by James Naughton cannot

save this audiobook from a truly awful story that tries to pass off a rightist political manifesto with Fascist underpinnings as an entertaining thriller. The silly plot focuses on our hero, a macho U.S. Congressman, who punches out the National Security Advisor in the President's presence, spouts that slain U.S. Congressmen got what they deserved, calls Congressmen who oppose his agenda "pansies," and, finally, joins a plot to kill another Fed with assassins who just happen to include an old Marine buddy and the Congressman's own grandfather. The assassins are all just good Americans, demanding at one point that the President sponsor a crime bill, of all things, or else! They are noble reformers, with a dirty job to do, rubbing out corrupt politicians. This reactionary diatribe is not recommended. ?Mark Pumphrey, Polk Cty.
