Von Tori Harris : TFS Theseus: The Terran Fleet Command Saga Book 2 (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised TFS Theseus: The Terran Fleet Command Saga Book 2 (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 1 Kunden fanden die folgende Rezension hilfreich. So good i bought itVon F. SpitzliThis is one of the very few books that i read via kindle unlimited and then bought because its just a fantastic book and the author deserves the money for it.I really love the universe that the author here builds with no clear "this is the evil enemy and this here is the good hero". At least at the moment there are uncertainties and that is plain fantastic.Reading a ton of sci-fi military i often have a problem with logic in these books. Not in comparison with reality but internally, when they have a technology available and only use it for one thing while it could be used for so much more (i once read a story where the ship could jump in seconds through a star system but then watched how a shuttle with crew got chased for a long time and then destroyed because they were to far away... this stopped me from reading for several days), this is not happening in this book and i totally love it!On top of that you will have great characters and a story that develops into something that will keep your imagination running (how will it end? what will griffin do? Who is really the enemy? is there a surprise turn? etc etc)And i must say, at least in my mind, these are some of the coolest spaceships i read about.0 von 1 Kunden fanden die folgende Rezension hilfreich. kurzweilige Military SciFiVon hgsVielleicht nicht die innovativste Serie, aber mich hat es unterhalten. Ich habe diesen und auch den ersten Band jeweils in einem Zug durchgelesen. Der Schreibstil ist flssig und der Autor hat es geschafft mich in die Handlung mitzunehmen. Allerdings bleiben die Hauptpersonen etwas oberflchlich da wir kaum persnliches jenseits der aktuellen Handlung von ihnen erfahren.2 von 4 Kunden fanden die folgende Rezension hilfreich. DmmlichVon DIMISehr kindlich mit wirrer Handlung und unglaubhaften Charakteren. Weder das Verhalten der Wek noch das der Pelaraner ist in sich schlssig; alles in allem ein dmmlicher Plot.

Kurzbeschreibung"Welcome to the Pelaran Alliance ..."With those simple words, the Guardian spacecraft openly revealed itself to Humanity, heralding a new chapter in its 500-year-long mission to cultivate our world. Earth's population must now make its first, planet-wide decision -- join the most powerful alliance in our galaxy, or chart our own course -- deciding for ourselves which civilizations are worthy of our trust. Will we be the first world to decline the Pelarans' invitation, or does their offer come with an implied threat?Aboard Terran Fleet Command's flagship, TFS Navajo, Admiral Kevin Patterson assembles his formidable but untested forces in hopes of defending the Earth. Knowing that an attack is imminent, he must risk everything in hopes of finding his enemy and taking the initiative.Returning from TFC's first battle, Captain Tom Prescott learns that his frigate, TFS Ingenuity, is more heavily damaged than expected. Now he must race against time to prepare a new ship, then execute a daring mission to save Earth's last and best hope of avoiding full-scale interstellar war.Author's Note: The books in this series build on one another are not intended to be read as "stand-alone" stories. Please read TFS Ingenuity before starting TFS Theseus._____TFS THESEUS is the second book of the Terran Fleet Command Saga by author Tori Harris. The story is typically associated with the military science fiction, space exploration science fiction, colonization, first contact, genetic engineering, space opera technothriller, galactic empire, or alien invasion categories.Kurzbeschreibung"Welcome to the Pelaran Alliance ..."With those simple words, the Guardian spacecraft openly revealed itself to Humanity, heralding a new chapter in its 500-year-long mission to cultivate our world. During his early professional career, he was fortunate enough to briefly have the opportunity to fly jets in the U.S. Air Force, and is still a private pilot who loves to fly. Tori has always loved to read and now combines his love of classic naval fiction with military Sci-Fi when writing his own books. His favorite authors include Patrick OBrian and Tom Clancy as well as more recent self-published authors like Michael Hicks, Ryk Brown, and Joshua Dalzelle. Tori lives in Tennessee with his beautiful wife, two beautiful daughters, and Bizkit, the best dog ever.
