superstars=1 winnerVon Ein KundeOn a remote island off of the state of Washington lies an old Victorian summer
house. It is just what it seems except for the fact that visitors seem to fall in love with one another under its magical
roof.Three of the romance genre's most talented superstars take readers on a vacation to this magical Rainshadow

Lodge. San Francisco businesswoman Catherine is burned out and desperately needs a vacation. She decides to return to the place where she spent many happy moments as a child. When she arrives with her two children, the single mother meets Michael, the local handyman and Catherine's first love. That old familiar feeling returns in Jill Barnett's beautiful contemporary, "Old Things." Beth and her son travel to the island to meet some friends on her first vacation since her spouse passed away. To her chagrin and fate, Beth is forced to share her lodging with John, an uptight, dead-serious business man and his angry daughter. Only Debbie Macomber could find a way for two obvious opposites to fall in love in her particularly palpitating "Private Paradise." Mitch is a classic workaholic who disses people who spend their life being mellow. However, he has a lobotomy of the soul when he meets Rosie, a laid-back scientific consultant. They can teach each other about what they professionally do best, but can they learn how to love in spite of all that ISLAND TIME they have to share? Susan Wiggs knows how to entertain her readers in a most exciting way. All three stories are top rate and readers will want to spend more time at mystical house. Harriet Klausner von 0 Kunden fanden die folgende Rezension hilfreich. Summer Sizzles, Seethes, and does the Macarena Von Ein Kunde Putting authors Jill Barnett, Susan Wiggs and Debbie Macomber together at Rainshadow Lodge was a brilliant idea - and what a gift for readers. For three women, Catherine Winslow, Beth Graham, and Dr. Rosalinda Galvez, the old Victorian summer house on a remote island in Puget Sound is a sanctuary, a place to draw a deep breath, rest, re-evaluate their lives, and heal. None of them expected to find love. For Catherine, love comes packaged in the shape of her first love - and wow, have the years been good to him! Rosalinda discovers a workaholic boss that needs shaking up - so she teaches him the Macarena and raises his blood pressure. Beth finds a man whose teen-age daughter just may give them both grey hairs before they get around to saying "I love you". These may be stories set in a summer place, but they'll keep you awake, smiling, any time of the year. 0 von 0 Kunden fanden die folgende Rezension hilfreich. 3 special writers take you to a special place... Von Ein Kunde What's better than reading a book by your favorite author? Reading one by your favorite, your second-favorite, and your other second-favorite! I laughed and cried over these three delightful novellas, marveling at the breathtaking setting. If you've ever dreamed of falling in love in a perfect spot, during a perfect summer, this book is for you.

Kurzbeschreibung Perfect for fans of Maeve Binchy' - Candis It's nothing special on the surface, merely a rambling old Victorian summerhouse on a secluded island, where the sky is blue and the water is clear. Yet after a month at the Rainshadow Lodge, people begin to change and fall in love. How else can you account for what happens to the most mismatched, unlikely couples? There's Beth, who's stuck sharing the lodge with a complete stranger and a difficult one at that. And Mitch, a workaholic on a deadline who has to depend on free-spirited Rosie, who functions on "island time." Not to mention Catherine, who's falling in love with Michael, the lodge's handyman for the second time!. de The San Juan Islands in Washington State come alive in That Summer Place, an anthology set on fictional Spruce Island. In "Old Things" by Jill Barnett, California divorcee Catherine Winslow seeks to recreate the magic of her childhood with her two daughters on the island where her family spent many happy summers. She has no idea that she is about to revive a teenage romance as well. In Debbie Macomber's "Private Paradise," widow Beth Graham is invited to stay on an island with friends. But when a last-minute accident keeps her friends from the island, Beth and her son end up sharing quarters with a handsome single father, John Livingstone, and his teenage daughter. Close quarters cause tempers to flare, but Beth and John just may manage to find love before the trip is over. "Island Time" by Susan Wiggs finds workaholic Mitch Rutherford and Dr. Rosalinda Galvez busily conducting an environmental impact study of the island, although Mitch wonders if he will ever get anything done with the beautiful doctor around. Barnett's trademark humor, Macomber's poignancy, and Wiggs's expert storytelling all combine to create the perfect summer beach book. --Maureen Wachsmith .com The San Juan Islands in Washington State come alive in That Summer Place, an anthology set on fictional Spruce Island.
