Von John Buchan : The 39 Steps before purchasing it in order to gage whether or not it would be worth my time,
and all praised The 39 Steps:

Kurzbeschreibung One of the most exciting chase thrillers ever published, and a huge influence not only on spy fiction, but on Hollywood as well, 'The 39 Steps' is a book which has captured the imagination of audiences for decades. It was written by acclaimed Scottish author John Buchan, who inspired the writing of other great British novelists, including Graham Greene, Ian Fleming and John le Carr. 'The 39 Steps' remains his most famous work. It is the first of five novels featuring Richard Hannay, an all-action hero with a steely determination and an extraordinary knack for getting himself out of sticky situations; the original, archetypal man-on-the-run character, which has been a staple in literature and film in subsequent decades. The novel charts the electrifying story of an ordinary man caught up in a sinister international plot. With an exclusive introduction by the author's grandson Toby Buchan, it is an edition to be cherished by any fan of the book, or anyone just discovering Buchan's work.
