Von Robert Rankin : The Abominable Showman (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Abominable Showman (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Bonkers in SpaceVon PandaemoniumI had lots of fun with the fifth book of this particular saga, even though I am much more into Rankins contemporary stuff - maybe for a Johnny Foreigner like me the elaborated lingo is quite difficult to read.You can hardly call it a story, it's more of a convoluted series of surreal steampunk adventures. There is not even

an actual villain, and the reason for the nameless ten-year-old hero for being there is described on just one page. It's pretty obvious that Robert Rankin just cobbled things together as they came along, but never mind - it's funny and full of surprises. I especially enjoyed the scenes with Queen Victoria and Prince Albert who are pretty much constantly humping. The old magic is still there. The same with Rankin's writing...0 von 0 Kunden fanden die folgende Rezension hilfreich. Fantastisch! Von T. Herrmann Super Schlussakt der Serie! Skurril und humorvoll wie immer! Absolut lesenswert. Leider nur als ebook. Aber besser als das Buch nicht zu lesen.

Kurzbeschreibung THE ABOMINABLE SHOWMAN, EXCLUSIVELY AVAILABLE AS AN AMAZON KINDLE EDITION. HOORAH, HAROO AND SAINTS BE PRAISED... BARRY'S BACK. Yes, it's true. the galaxy's best loved time-travelling holy guardian sprout, Barry, has returned for his last ever adventure. And if that alone isn't worth making a big fuss about, then how about this? The year is 1927 and the British Empire is about to celebrate Queen Victoria's ninetieth year upon the throne. And where better to do this than aboard the most expensive and exclusive cruise ship ever built? The mile-long SS Leviathan, a space liner/pleasure craft, orbiting Earth, where, in the spirit of the Jazz Age, anything goes. For in space the laws of Earth do not apply and rich folk can really indulge themselves. Meet Lord Jonathan Crawford, gentleman adventurer. Lady Agnes Rutherford, secret agent. The "Three Owls", Aleister Crowley, Master of the Arts Magickal" Al Jolson, politically incorrect "minstrel" and Voodoo High Priest. And Al Capone, a right dodgy geezer. And let us not forget the Master and Commander of The Leviathan, Count Ilya Rostov, the 20th Century's very first super-villain. Add into the mix a vegetable lamb, a reluctant schoolboy plucked from the nineteen-fifties to save the world and more space pirates than you could shake a sticky thing at. Stir in God, a modicum of excruciating poetry and a big spoonful of Armageddon and you may well have got started into THE ABOMINABLE SHOWMAN. This stand alone, old school, space adventure, written in Robert Rankin's unique style, shows that this best selling and much imitated author is still at the very top of his game and that his mind remains one of a kind.
