It's a great concept and the characters were really lovable! I'll definitely be reading the next part.0 von 0 Kunden fanden die folgende Rezension hilfreich. Very goodVon M. HeilandI liked this book very much and can't wait for the sequels.It's nice to see a lot of tropes subverted (and seeing bathrooms used as bathrooms and not only hide and crying rooms).The only criticism I have is that the protagonists have not enough flaws and very little to overcome. But I have great hopes for this series.0 von 0 Kunden fanden die folgende Rezension hilfreich. So many ideas, so many important thoughts!!Von LisaThis book was amazing!It did not have the most intriguing plot, to be sure. It was funny and entertaining and a pleasure to read.But most an all: It did not have any cliches, stereotypes whatsoever!Loved it. I love Maggie and I love Victor and I love EVERYTHING about this book.Well done =)
