**Von T.R. Harris : The Apex Predator: (The Human Chronicles Saga Book #7) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Apex Predator: (The Human Chronicles Saga Book #7) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Fun!Von A.F.H. TintenkriegerThe Apex Predator is the newest episode of the Human Chronicles Saga, where you have to shut off your understanding of physics and just accept that its a modern fairy tale that doesnt really take itself serious.And with that mindset you can thoroughly enjoy this helter skelter ride through the universe.With a bit more nonsense stuff this could actually be related to the legendary doulgas Admas Hitchikers Guide, which is also no ordinary cost with

some highly improbable (get it? haha) stuff to digest.

Kurzbeschreibung From international bestselling science fiction author T.R. Harris comes BOOK #7 in his Epic saga of Human Superiority throughout the galaxy: The Human Chronicles Saga - The Apex Predator. Adam Cain ... The Alien with an Attitude is back! In this alien universe, Humans are the Supermen - stronger, faster and more coordinated than nearly all the other aliens in the galaxy. It's this unique concept that has made The Human Chronicles Saga one of the most-popular science fiction series on the market today. Full of exotic adventure, alien worlds, fantastic space battles and a down-to-earth sense of humor, The Chronicles are a truly unique take on the subject of Human-Alien interaction. In this edition ... Having placed a bounty on the heads of the alien Klin and Kracori races, Humanity must now face the desperate wrath of mankind's worst enemies, who have once again joined forces for a pre-emptive strike against the Earth. Their plan is brilliant ... and only the special abilities of ex-Navy SEAL Adam Cain can save the planet. It's a frantic race against time, as Adam and Sherri Valentine arrive on Earth just in time to help mount a ragtag defense against the Kracori fleet. But will it be enough? Meanwhile, Riyad Tarazi is on his own, carrying out the dangerous assignment of verifying the location of the Kracori homeworld of Elision. Riyad soon discovers he's in the middle of a hornet's nest of deadly aliens, every bit the equal of the Human Supermen. Will he succeed, or will he become just another casualty of a galaxy growing ever more hostile to Mankind. In addition, the evil Englishman Nigel McCarthy is up his old tricks as well, and his actions resurrect the sleeping giant of the Juireans. It's the last thing the Humans need is another deadly alien race devoted to their destruction. As with all the books in The Human Chronicles Saga, this one is full of adventure, exotic locales, strange alien races ... and of course the humor that readers have come to expect in each new volume. On the planet Earth, Mankind is The Apex Predator. In the Milky Way galaxy, we will assume the same role. After all, you can only poke the bear so long ... before he bites your head bit off! The Human Chronicles Saga is a MUST-READ for all fans of pure science fiction. Pick up the entire series today ... and find out why this thrill-a-minute collection of space opera adventures has become one of the bestselling sci-fi series on over the past two years. The Novels of T.R. Harris The Human Chronicles Saga The Fringe Worlds Alien Assassin The War of Pawns The Tactics of Revenge The Legend of Earth Cain's Crusaders The Apex Predator A Galaxy to Conquer The Masters of War Jason King: Agent to the Stars The Enclaves of Sylox All the books are available on .com.
