"lore". However, this book does not make use of these strengths. The story itself chains one event after another, which increasingly challenged my suspension of disbelief for this fantastic world. Either things run too smooth, the heroes act too stupid, or terrible events pile up without end and are still somehow thwarted, again and again. It is a bit too much of everything and it caused me to skip paragraphs in a fast forward in an attempt to find back to the real story. Character development and a more in depth exploration of the darker aspects of the lore and the given cultural context are missing. All in all, please read it, since you already have come so far in the saga, but do not expect too much. More focus on character and lore, less cataclysmic pacing would have helped a lot. 0 von 1 Kunden fanden die folgende Rezension hilfreich. I wish there was a Book Four! Von Onno Krause-Leipoldt Good Book and a Good Ending for the trilogy, but I wish there was a Forth Book because some Things just don't feel finished! 0 von 1 Kunden fanden die folgende Rezension hilfreich. Great Series Von VW The Saga is a great series with everything in there: Passion, Love, War, Adventure. I really like reading book three and am looking forward to the final volume...

Kurzbeschreibung Two years have passed since the war, yet without essence the Empire's economy has collapsed. Trade is at a standstill, famine sets in, and, with no food and no essence, the people begin to riot. In the midst of the growing unrest, Miro struggles to balance his life with Amber against his resolve to keep threats to the Empire at bay. His sister, Ella, helps to build the machinery the Empire desperately needs, but she longs to find Killian and believes his powers will be needed in the conflict to come. News of a wedding brings a much-needed ray of hope to the weary people. But as citizens and leaders gather from afar for the festivities, an evil threat shatters the fragile peace: one of the Evermen has returned. And he will not rest until he has completely destroyed the humans he despises. This is the third book in the epic Evermen Saga. Devouring fantasy and science-fiction classics from an early age, his love for books translated to a passion for writing, which he began at the age of eleven. Inspired by the natural beauty around him but also by a strong interest in history, he decided in his twenties to see the world. He relocated to London and then to Thailand, Mexico, Austria, and Malta, developing a lifelong obsession with travel. It was while living in Thailand that he seriously took up writing again, producing his first full-length novel, *Enchantress*, the first of four titles in his internationally bestselling Evermen Saga. When he isn't writing or traveling, James enjoys sailing, snowboarding, classical guitar, and French cooking.
