Humour and emotion for adults and childrenVon ruprtbDid you ever love a book when you were a kid? This is the book you should have read. The author speaks both to you and your kids today and the world is a fantastic adventure - go with it and enjoy a magical experience. I must have read this 35 years ago and as an adult loved every page of fantasy spun in

our world in an age when great grandparents were kids. I hope these uplifting, inspiring tales of human frailty and being young last forever \_ they work on every level. There is no better book than this but all E. Nesbit's other books can be heartily recommended and are often just as good as this. (Five Children and It, The Railway Children, etc.)0 von 0 Kunden fanden die folgende Rezension hilfreich. Spannender KlassikerVon MilsteinRulezGewitzt und ernsthaft, staunend und mit einem ganz natrlichen Common Sense kommen die Kinderhelden der Geschichte durch eine Welt, die ganz wirklich ist und doch Raum fr Magie hat. Das liest sich wie ein wohltuend ungezwungener Vorlufer der angestregten Welten von Harry Potter, Artemis Fowl usw.0 von 0 Kunden fanden die folgende Rezension hilfreich. LOVE IT!!Von ({{|}})I really liked this story about the adventures of a family who come by a magic carpet and a pheonix. As the children in the family try to keep the fire-loving pheonix and the wild trips they take on their new nursery carpet, they help not a few people and improve one or two as well. It is a funny but also feeling classic which all fantasy lovers ages eight and up will love. Would also make a great read-aloud.
