Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. a brilliant novel with a psychologically fascinating and very intricate plot Von Fritz Graul've read this brilliant novel with great pleasure. Its wealth of philosophical, artistic and literary references makes it into a richly woven piece of modern literature. But the real pleasure comes from the psychologically fascinating and very intricate plot. The three major characters, who appear to be imprisoned in their views of the world and their perspectives, are well-drawn, real

to life, and they make the reader see through the surface of things, penetrating the true essence of situations and exploring the souls of other humans that they encounter on their voyage of self-exploration. While the character of Peter remains stable throughout the novel, the characters of Ivan and Cathy undergo some interesting changes. Ivan learns to become a more considerate and modest man who discovers what empathy could mean. Most striking of all, however, is Cathy. She is burdened by her youthful admiration of her father's coldness and develops into a neurotic and hysterical character, unfit for serious relationships and eventually unfit for life. A truly "good read", a book that you just cannot put down once you've started to read it - and a book which definitely deserves a second reading! It will appeal to readers who like the novels of Ian McEwan and Sebastian Faulks. It is of the same category and appeals to the reader at the same level of literary achievement.

It offers the well-ripened fruit of alert intellectual and artistic practice/creativity." Professor Dr Norbert Platz, University of Trier "An intricately structured novel whose skilful shifts of perspective challenge the reader to unravel the interlocking histories of characters grappling with the impermanence of human relationships and the unpredictable interventions of violence and passion in human life."
