Terrific novel...Von Detra FitchThe character of Tim Rackley is also seen in a previous novel, "The Kill Clause". Tim returns to service with the US Marshals and goes deep undercover of a cult to locate Leah Henning. This cult is into mind control, which can be (and normally is) a nightmare!Tim goes in as a willing participant. What he witnesses makes

him determined to shut The Program down once-and-for-all. To do so, Tim must face his own horrible past and fears. It is the only way to convince the leaders of the cult that he is sincere. But one thing is certain: Tim will either shut down The Program or die trying.***** You will stay up a few extra hours reading this psychological tale. Each character is masterfully detailed and I could not help but sympathize, especially with Tim Rackley. I can only hope that there are a few real officers out there with Rackley's morals. Gregg Hurwitz's writing is down right engrossing. *****Reviewed by Detra Fitch of Huntress Reviews.0 von 0 Kunden fanden die folgende Rezension hilfreich. Scary and intense! Von K3tI had to read that book for the Austrian SAT and it was thought-provoking and very intense. Having no connections and nothing to do with sects or gangs or anything alike, I got an insight in how things can be, if you get sucked into those "secret clubs". It was easy to read, however, I have to admit that the author had a very vulgar and direct writing style, which is not always appreciated. Nevertheless, Gregg Hurwitz depicted the crucial scenes truly fantastically and he had the power to lead the reader into another world. The beginning of the book is rather confusing, as the first chapter starts off with a girl, and the next chapter is suddenly about the protagonist and if you're not paying attention you can easily confuse the characters and names. However, once you get the story, the author's style and way of thinking it is enjoyable to read. Some scenes do have a scary impact on the reader and provoke the imagination to go to dark places. Gregg Hurwitz did a great job on researching sects and I would be curious where he got his detailed information from. For what it's worth, this book makes you wonder how people can join these groups and it will teach you a lesson on not screwing with things like that. The end of the book, however, is predictable and very Hollywood- I don't want to say more, but you'll see what I mean by that once you've finished reading. If you're interested on getting to know a sort of sect and you want to get scared from time to time (and I am really not the easily-scared-type of girl) this book would be perfect for you.

Kurzbeschreibung The series that started it all! In this powerful follow-up to his action-packed thriller *The Kill Clause*, Gregg Hurwitz, the new maestro of pulse-pounding suspense, ratchets up the excitement with another sensational page-turner featuring Tim Rackley, a driven lawman motivated by honor, morality, and a deep sense of justice. Called back into the fold of the U.S. Marshals Service, Tim is tasked with retrieving Leah Henning, the daughter of a powerful Hollywood producer, from a mind-control cult. As Tim wends his way deep undercover into an insidious operation called The Program, he confronts a brand of mind-warping manipulation beyond his worst expectations. Tim becomes enmeshed with a diverse band of characters from the charismatic, messianic leader T. D. Betters to a cult reject burnout to the intelligent yet highly vulnerable Leah herself and finds himself caught in a shadowy landscape of lies, manipulation, and terror. At stake: innocent minds maybe even his own. A shocking suicide in the La Brea Tar Pits serves as the prologue to this well-realized thriller about a mind control cult and the efforts of former deputy marshal Tim Rackley to rescue the stepdaughter of a Hollywood producer with political aspirations from its clutches. Rackley's Rambo-esque vigilantism in the wake of his own daughter's violent death got him cashiered from the marshal's service, but Will Henning has enough clout to get Tim temporarily reinstated to the service--at least, until he manages to return Leah Henning to her family. But the only way to get into the heavily guarded compound controlled by the mysterious cult leader known as the Teacher is for Tim to go undercover as a willing initiate, a potentially deadly masquerade that brings him face to face with the demons that have haunted him since childhood. A sharp, tense, multidimensional novel that will keep the reader turning the pages until the bloody end, *The Program* more than measures up to the previous titles in Hurwitz's series featuring series hero Rackley (*The Kill Clause*). --Jane Adams.com A shocking suicide in the La Brea Tar Pits serves as the prologue to this well-realized thriller about a mind control cult and the efforts of former deputy marshal Tim Rackley to rescue the stepdaughter of a Hollywood producer with political aspirations from its clutches.
