Von Cooper West : The Protector (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Protector (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. WonderfulVon QuerleserShape-shifter m/m-lovestories aren't unique anymore - but this one is! West introduces us to the wonderful world of Handlers and Protectors. Not only is the society - full of prejudices as well as acceptance - described without boring descriptions, but all characters are authentic and full of life. The problems of the MCs are understandable and for one the reader don't have to roll their eyes all the time. There are little misunderstandings and

the problems aren't easy to solve. The situation is difficult: mourning his dead bondmate Alex neither expect nor want another bondmate. There is only one for each Protector and the fact that he even outlived his bondmate is unheard of. Marcus is thrilled to find his bondmate, though, but Alex isn't really a catch and is no bondmate at all maybe better than an unwilling one? There is nobody to blame they just have to deal with the situation. Difficult enough and walking around eggshells with their bondmate doesn't help. The attacks won't help either but they give them something to concentrate on other than their bonding. Although the story is not at all a "Who did it?" story - cause the big bad villain is obvious quite from the beginning - the suspense in solving the motive is more than enough. Little logical issues - like why waiting three years of perfect possibilities to commit the murder - don't lessen the fun. And while Alex and Marcus are facing new problems every day, they grudgingly learn how to get along with their unwilling bondmate. More or less...A wonderful story with all around captivating characters, nice storyline and one or two surprising twists mixed with nearly no typos and a fantastic style. Even knowing the bad guy and guessing their motive don't hurt...Now I'm trying more from this author... ;-)

Something different
Von -Kunde
Not a bad read, but honestly, after Chapter one you knew who the bad guy was, and I thought, why don't they know. And I like Shifter Stories.

Kurzbeschreibung
Guardsmen are always matched in a bonded pair. The Protector can shift into a weredog, and the human partner is his Handler. They are incredibly rare and highly valued, but people also fear them for their mystical abilities. No Protector in living memory has outlived his Handler until Alex Taylor. Now a widower, Alex lives a lonely half-life and faces day after day of grief with no hope for happiness in the future. When he unexpectedly bonds with the young and vibrant Handler Marcus Stephanek, Alex is angry and unwilling to leave the memory of his former Handler behind. He pushes Marcus away and tries to distance himself from their bond. But then a mysterious villain who has been secretly shadowing Alex for years sets his plan in motion. Alex and Marcus must learn to trust their bond and love each other, or risk not only their own lives but the lives of those closest to them.
