KurzbeschreibungWhen newly widowed Hattie Rommel chooses a second husband, she doesn't expect him to fulfill her most secret dreams. She just wants him to take her to Oregon. Emmet Lachlan marries Hattie with the understanding that he will be free to leave her behind, once she is safely in Oregon. He is a wandering man, not a settling-down farmer. ber den Autor und weitere MitwirkendeAmong her varied careers are a couple Judith B. Glad actually chose, rather than falling into. With her children in school, she decided it was time for her to follow her own dreams, so she went back to school and studied botany. After completing her M.S., she became a botanical consultant, and spent the next twenty-odd years picking flowers for a living. Well, it was a little more complicated than that, but she picked enough flowers to keep her happy. Consulting is not always steady work, so one slow winter Judith decided to spend a little time at her second career choice. Now she'd done a lot of writing as a consultant, but somehow describing proposed mine sites and interpreting statistical data wasn't the kind of writing she wanted to do. So she wrote a book. And another, and... Before she knew it, she was spending more time writing than picking flowers. Judith lives in Portland, Oregon, where her garden blooms all year 'round and the long, rainy winters give her lots of time for writing.
