wanted to read this one asap. unfortunately it's potential is not really fully developed and I was disappointed in the story. this could have been the perfect mixture of PR and UF and the plot was a good idea. but this idea was not very well developed and all the events seemed to be a sequence of ideas without really thinking the story through. Carolyn was a fun character with a strong character. I loved her idea of a hoard. Reed was a typical Alpha male but there was not really a lot of character development. it was just like first he could not stand her and then everything changed. this resulted in a not really sizzling romance, because the spark and the development from this was missing. All in all, I liked the idea of this story but not the way it was told. it was an ok read, which could have been much, much more. Disclaimer: An ARC was provided to me by Netgally and Entangled in exchange for an honest review

Kurzbeschreibung Long ago, the Cult of Humanity sacrificed the Dragon Queen, crippling the breeding process. But now Carolyn hears the voice of that long dead queen telling her that she holds the key to breaking the spell that will free all the female dragons. FBI dragon Reed's disdain for humans can't mask the magnetic attraction he has for Carolyn, but when she tells him she's going to shift into a dragon he thinks she's crazy. A female hasn't been hatched, or shape shifted, in over a thousand years. He's proven wrong after Carolyn shifts and is named the new Queen on the block. A never-ending line of suitors forms, but she only wants Reed. Too bad he doesn't want in on the competition. But when the Cult kidnaps Carolyn to sacrifice her in an effort to make the curse against the female dragons permanent, Reed must face his fears and feelings, racing to save the woman he realizes he can't live without. The Emerging Queens series is best enjoyed in order. Series Order: Book #1 The Queen's Wings Book #2 The Queen's Flight Book #3 The Queen's Dance
