Von Lucy Monroe : The Real Deal (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Real Deal (English Edition):

Zero-self-esteem woman lucks outVon Ein KundeAll that's left to Amanda - after a painful divorce with her emotionally abusive, sleazy husband - is her carreer. She will not jeopardize it by messing up the deal that could rocket her to the top, so she has to convince a very stubborn, eccentric inventor/scientist of its merits. The inventor is more interested in her merits and plots to keep her on his isolated West Coast island. They get to know each other, better...A book that

plays with the weaknesses of career-oriented women and their self-conception, but still gives hope. Both main characters are almost credible, not one-dimensional and really, truly interested in each other (not only in sex, but that does work out rather well, too). 0 von 0 Kunden fanden die folgende Rezension hilfreich. There's an Amanda in all of us

Read the book in only 2 days, just couldn't stop! Great, romantic read with a happy end.

KurzbeschreibungThe most important thing in Amanda's life is negotiating a successful merger between her company and Brant Computers, a family-held competitor. It should be a done deal: Company president Eric Brant is on board with the idea. But when Amanda arrives in Eric's office, it is his cousin Simon Brant who greets her-and Simon is anything but agreeable. He's not about to give up control of the family company or lay off loyal workers. Squaring off against the sexy, brilliant, sexy, obstinate, sexy, eccentric, not to mention sexy Simon is completely frustrating-and a total turn-on. And when he walks out on her presentation, sidetracked by another one of his brilliant ideas, Amanda is shocked...and intrigued...no, furious!...and...and...and so attracted she can barely enter data into her tablet...Simon has never met a woman as passionate and driven as Amanda, or as devastatingly attractive. He can't decide if he wants to put her on the next plane home-in the cargo hold-or kidnap her and spend a long weekend showing her exactly the kind of negotiating he likes best. Come to think of it, if the lady wants war, maybe they should engage in full-on battle...in the bedroom...and see who will be the victor. But when intimacy leads to an explosive passion, it might be time to think of a different, more permanent kind of merger...one that's less about business and all about pleasure...

Pressestimmen"Lucy Monroe captures the very heart of the genre. She pulls the reader into the story from the first to the last page."
