Doom's Day Story but with human twists and turnsVon Ralph von VignauThe end of humankind or the salvation of the world. I read all 3 books in the series in less than a week.The "hero" survivor turns out to be a reasonable character but not a survivor but rather a frightened individual. However people follow him. The bad guys are not all bad and from book to

book become very human. A nice and entertaining story but one does need to read all 3 books.

KurzbeschreibungUnnatural calm prevails. Trepidation builds. Silently, a storm gathers.Survivors from mainland Europe and North America converge on Britain. Weary, confused, all come seeking answers; some are spoiling for a fight. What began with the Cleansing and was hastened by the Beacon nears fruition. But time is running out, and human numbers are too few to win the last battle alone. Unless help can be found from the unlikeliest of allies, failure is assured. Humankind faces its ultimate test.
